BAKER IS FOR PEACE.

The American Minister is Again Endeavoring to Prevent an Outbreak in the Nicaraguan Republic.

He is Not Seconded by the Other Diplomats and is Not Likely to Succeed.

Sentiment Among the Better Class in Favor of a United States Protectorate is Growing.

NEW YORK, Aug. 12.—The World's Managua, Nicaragua, special says: The prevailing opinion seems to be that the truce between the Granada and Leon factions cannot be maintained. The friends of the deposed president, Sacasa, desire his recall from the United States. Many business firms are bankrupt and money is exceedingly scarce. It is unsafe to go a league outside of the towns owing to the predatory bands of discharged soldiers.

The sentiment among the better class in favor of a United States protectorate is growing, though the English and French influences are persistently hostile to American ascendancy here. The American minister is endeavoring to prevent an outbreak, but he is not seconded by other diplomats.

TO PAY THEIR INDEBTEDNESS.
 Fairbank and Cudahy Trying to Compromise With Creditors.

NEW YORK, Aug. 12.—A special to the Tribune from Chicago says: N. K. Fairbank is now ready to turn over collateral to pay his \$800,000 indebtedness for a release. He called on the majority of his creditors yesterday.

Just as soon as the Fairbank negotiations are complete, John Cudahy will make the offer of \$800,000 collateral to settle his indebtedness of \$1,800,000 on the basis of 50 cents on the dollar. There is going to be some difference of opinion as to the giving of notes for the 50 per cent balance. Mr. Cudahy claims that with notes out of \$800,000, no matter how far off, he would be without business credit.

He says there has never been a year since he was in business that he has not cleared from \$100,000 to \$200,000, and with any show to start in business along side other packers he could earn money very fast. The collateral which Mr. Fairbank proposes to turn over to secure his \$800,000 indebtedness is improved central real estate in Chicago.

BOLD ROBBERY IN CHICAGO.
 Four Masked Men Beat a Saloonkeeper and Rob the Till.

CHICAGO, Aug. 12.—Four masked robbers entered the saloon of John B. Anderson at No. 1819 North Clark street at 11 o'clock last night, and after beating the owner into insensibility robbed the till of \$75 and made their escape.

Anderson was alone in the saloon at the time and was just preparing to close, when four men entered and ordered Anderson to produce what cash he had, but instead of doing so, Anderson grappled the nearest man and shouted for help. Instantly the others fell upon him and after beating him into insensibility with the butt ends of revolvers robbed the till.

Anderson is in a dangerous condition and may die. No trace of the robbers has been secured.

RIDDLED WITH BULLETS.
 The Terrible Fate of a Negro Ravisher in Florida.

JACKSONVILLE, Fla., Aug. 12.—A special from Lake City, Fla., says that the party of Lafayette county citizens that passed through here Thursday morning before daylight en route for Hillman's convict camp for the purpose of lynching a negro engaged in the recent Brauford outrage have returned.

It is stated that they secured the negro without any trouble and that he was riddled with bullets and burned until all except his heart was consumed.

A Double Tragedy.
 PATTERSON, N. J., Aug. 12.—Yesterday, Mrs. Schippaner, aged 25 years, ended the life of her two-months-old baby by throwing it into the Passaic river and then committed suicide by drowning. She resided with her husband and two children at 32 Bergen street. The oldest child is two years old. Ever since the birth of the last child, Mrs. Schippaner has been sickly and frequently gave way to fits of despondency.

Died of Cholera.
 NEW YORK, Aug. 12.—At midnight Friscona Mola, aged 72 years, and Mariana Reberati, aged 23 years, died of cholera at the Swinburne island hospital. The remains were incinerated this morning. Before noon today the nine suspects were removed to Swinburne island for observation and treatment. They were all Italians.

Did Not Open Today.
 BROOKLYN, Aug. 12.—The Commercial bank of Brooklyn, a state institution, failed to open its doors this morning. The following notice was posted on the door: "This bank is compelled to close temporarily. (Signed) J. J. Vail, cashier." Cashier Vail said no statement would be made today.

Railway Shops Closed.
 PINE BLUFF, Ark., Aug. 12.—The St. Louis Southwestern railway shops in this city were shut down last night indefinitely, throwing out of employment about 300 machinists. No promise of immediate resumption is given and the men are leaving the city.

THE MINNEAPOLIS LAUNCHED.

Cramp's Shipyard Was the Scene of an Interesting Event.

PHILADELPHIA, Aug. 12.—With ceremonies that were practically a repetition of the observations at the launching of the commerce-destroyer Columbia, one year ago, the Minneapolis, a sister ship was successfully sent from the ways at the William Cramp & Sons shipyard here this afternoon.

On the former occasion a vice president of the United States was in attendance in the person of Levi P. Morton, and today Vice President Stevenson occupied a conspicuous place on the launching stand. The christening was done by Miss Lizzie M. Washburn, a daughter of the Minneapolis senator, who occupied a conspicuous place on the launching stand. The christening was done by Miss Lizzie M. HOCKING VALLEY MINERS.
 Will Not Return to Work Until They Are Paid.

NOBLESVILLE, Ohio, Aug. 12.—The miners of the Hocking valley met at Jobs yesterday to take action on the sixty-day note question. John Nugent resigned as president of the miners' organization. He explained that the officers and board had accepted the proposition of the operators to pay off in sixty day notes, leaving individuals, and that the miners were not expected to abide by their action unless they saw fit.

Others followed, condemning the action of the miners' officials. It was the sense of the meeting that the officers and executive board of the state and that President John McBride and Secretary Pat McBride of the U. N. W. of A. be asked to resign. It was decided to hold a convention of the counties of Athens, Hocking and Perry at Shawnee, Aug. 16, and to abide by the decision of this convention. The men refuse to return to work until they receive the pay due them.

TWO OUTLAWS KILLED.
 An Attempt to Rob a Store in Oklahoma Frustrated.

LEHIGH, O. T., Aug. 12.—Four outlaws attempted to rob Philip & Co.'s store Thursday night, with the result that two of them were killed. They first seized A. K. Tut, who lived next door to the store and had a key to it, and forced him to open the door. Warning of the proposed raid had been given, and the marshal J. V. Cael and three other policemen had been placed inside the store when the outlaws entered; the officers called to them to surrender. The robbers immediately began to shoot and the officers returned the fire, killing two of the men, and wounding the others. One of the men killed was named Pearce; the other man's name is not known.

THE COLONNA WAS WINNER.
 The Race of the Sloop Yachts For the Goeliet Cup.

NEWPORT, R. I., Aug. 12.—The following is the summary for the sloop race of the Goeliet cup race started yesterday: Colonna, start 11:38:11; finish, 1:28:00; actual time, 1:34:49. Vigilant, 11:37:29; finish, 1:38:00; actual time 14 hours. Jubilee, start 11:36:49; finish, 2:18:35; actual time, 1:41:46.

The official time for the schooners was: Volunteer, start 11:42:33; finish, 5:14:22; elapsed time, 17:31:49; corrected time, 17:25:10. Liscien, start 11:42:38; finish, 5:20:20; elapsed time, 17:37:51; corrected time, 17:59:23. Alcaen, start 11:45:00; finish, 18:05:45; elapsed time, 18:55:45; corrected time.

FALL OF A SCAFFOLD.
 Nine Workmen Were Injured, Three Probably Fatally.

CINCINNATI, O., Aug. 12.—This morning a scaffold on the new building of the gas company in the West End fell, carrying with it nine workmen.

Mike Quigley, Ed. Brant and Joseph McKee, bricklayers, are probably fatally injured. John Abraham, superintendent of construction, and I. Thompson, a laborer, are seriously hurt.

Reached Buzzard's Bay.
 BUZZARD'S BAY, Mass., Aug. 12.—President Cleveland arrived at Buzzard's Bay this morning at 7:30. He was accompanied by Dr. Bryant. The president was met at the station and conveyed in his carriage to Gray Gables. He appeared cheerful. The president will remain until about Sept. 1, or until Mrs. Cleveland is ready to return to Washington.

Not His Cousin.
 NEW YORK, Aug. 12.—A special to the Press from Boston says ex-President Harrison, who is visiting his daughter, Mrs. McKee, at Beverly, denies that the William Harrison who was sent to Denver poor house recently, was a cousin of his as claimed.

 PROVIDENCE, R. I., Aug. 12.—The supreme court rendered its decision today in the legislative controversy, sustaining the position of the Republicans.

ARE TALKING SILVER.

The Members of the House This Morning Resumed the Debate on the Repeal Bill.

Mr. Harter Likened Uncle Sam to a Man in the Last Stages of Alcoholism.

Mr. Vest's Speech to the Finance Committee Denouncing Any Bill That Ignores Silver.

WASHINGTON, Aug. 12.—Before a small audience of both members and spectators the silver debate was resumed at 11 o'clock and Mr. Wheeler, of Alabama, continued his speech. Mr. Morse, Republican, followed Mr. Wheeler. He gave his hearty approval to the views of the president relative to the repeal of the purchasing clause of the Sherman bill, but he believed that the present business depression was not attributable entirely to the Sherman bill. It came from the threat of the Democrats to pass tariff legislation.

Mr. Harter, Democrat, in speaking in favor of the repeal proposition, likened Uncle Sam to a man in the last stages of alcoholism. A drunken man taken to an emergency hospital would receive a treatment by the doctors, who would agree upon their treatment; but Uncle Sam's doctors did not seem to agree in the diagnosis.

Mr. Harter had some little controversy with the Republicans, in which he charged the Republican party with being responsible for the present situation, but at the same time eulogized Senator Sherman for his attitude at the time of the passage of the law which bears his name. Instead of being abused, he said, Senator Sherman should receive the grateful thanks of the whole people.

Mr. Harter was followed by Mr. Hendricks, who advised congress to repeal the Sherman law, to adjourn and to go home.

THREATENED BY VEST.
 A Significant Occurrence in the Senate Committee Room.

WASHINGTON, Aug. 12.—It is reported that there was a very significant occurrence in the senate finance committee room Thursday. A motion was made authorizing the chairman to introduce a bill to amend the law governing the issue of national bank notes as to permit the issue of notes to the par value of the bonds deposited as security therefor. This was agreed to after a discussion by a majority of one.

It was then proposed to authorize the chairman to report a bill to repeal the silver purchase clause of the Sherman law, whereupon Mr. Vest is said to have made a speech, denouncing the proposition and notifying his friends that no bill which ignored silver could pass the senate as at present constituted.

Under the influence of the remarks of Mr. Vest the committee unanimously reconsidered its action on the currency question and adjourned.

THE SENATE NOT IN A HURRY.
 Will Take Plenty of Time to Agree on a Plan.

WASHINGTON, Aug. 12.—The senate Democratic caucus committee has adjourned over until Monday, when they will meet again and attempt to come together on some common ground. Owing to the agreement that has been reached in the house the committee feels relieved and sees no reason for pressing action on its part.

The fact that the house will devote two weeks to the discussion of the silver question removes the necessity that existed to formulate a plan immediately, and the probability is that the caucus of Democratic senators will not act finally upon the policy to be outlined by its committee until towards the close of the debate in the house.

For the same reason, it is said, the finance committee may take more time in the deliberation of the various measures referred to it and not make a report as early as has been anticipated.

IS REMEMBERED HERE.

Col. Eddy, Who Suicided in Chicago, Lived in Duluth Over Five Years.

Col. Charles G. Eddy, whose suicide at Chicago was reported in The Herald's dispatches last evening, resided in Duluth in the '70's and is remembered by many of the old settlers. Capt. Pressnell remembers him very well and was greatly surprised to hear that he had taken his own life. He said he would never have believed him to be a man who would become so despondent over a failure to get work as to kill himself.

Col. Eddy stood very high in the railroad world and was recognized as a very able manager. Last February he resigned the position of first vice-president of the Norfolk & Western railroad to become second vice president of the Philadelphia & Reading railroad with a salary of \$20,000 a year. He was a general agent of the Lake Superior & Mississippi railroad at Duluth from April 1868, to March, 1870, when he became agent of the Central Vermont lines here, continuing in that position until November, 1873, when he went to Council Bluffs.

THE NEWSPAPER CASE.
 Harris Bennett on Trial Today for Stealing One.

Harris Bennett occupied the attention of Judge Powell, a jury of twelve men, a couple of belligerent lawyers and a whole lot of amused spectators all the forenoon. Harris is accused by the circulator of the News Tribune of stealing some papers out of the elevator in the Woodbridge block. J. B. Douglas, prosecutor and invincible Judge McGindley defended with all of his accustomed vigor and more good humor than usual.

The case was closed, and the arguments ended at noon, when Judge Powell adjourned court until 1 p. m., at which hour he promised to deliver his charge to the jury. At noon the prospect for the boy's acquittal was quite bright. His brother Shinn was acquitted of the same offense yesterday. Both boys have unsavory reputations around newspaper offices and even if they escape punishment, no doubt a lesson will be learned as a result of these prosecutions.

THE PIERS DEFECTIVE.
 Some Repairs to the Bridge at Lester River Are Necessary.

The board of public works went out to inspect the bridge across Lester river this morning. About a month ago, when the board accepted the structure, it was seen that the piers at the ends were not the best, but it was thought they would do. Now it turns out that the cement used was mostly sand and the crumbling of that has allowed the bridge to settle a little. The sandstone blocks will have to be removed and those of granite put in, together with good cement.

This stone work was done when S. L. Rice was city engineer at Lakeside and much of it very late in the fall. Bain & Co., of Minneapolis, were the contractors. Notice has been sent them of the condition things. The city yet owes \$500 for the work and as the damage will run from \$300 to \$500 the city will not be out anything. The whole structure has cost about \$12,000.

Will Build Warehouses.
 Eastern parties, owners of the property on Lake avenue adjoining the buildings occupied by F. B. Hawkes & Co., are contemplating the erection of a large 3-story brick warehouse on the avenue running back to the railroad track and between the track and the slip a 3-story warehouse, covered with corrugated iron. Stryker, Manley & Buck are agents for the parties. The plans have been drawn and bids have already been received. The cost will be about \$10,000. The buildings will be erected this year, if possible.

A Ten Per Cent Reduction.
 PHILADELPHIA, Aug. 12.—A notice was posted in the Baldwin Locomotive works last night, announcing a reduction in the price paid for what is known as contract work to take effect next week. The reduction, which will effect 3000 men, will amount to about 10 per cent.

The Council Discusses the Question of Giving Employment to Laboring Men Who Need It.

The Project of Beginning Work on Sewers Was Broached But Met With Opposition.

The Assessments Would be Higher Than Property Values Warrant—Other Items of Interest.

Pursuant to call a special meeting of the council was held last evening to discuss ways and means of furnishing employment to the idle men about town. The question of building sewers was discussed, Trustee Peterson favoring the project and Trustee Hall opposing the same. Mr. Hall objected to the plan on the ground that such improvement could not be legally paid for out of the general fund and that the assessment on the districts benefited and the cost of connecting with them would be more than the present property values would warrant. He stated that he would be in favor of making the desired improvement if the finances of the village were in proper shape, but he thought it useless to hire men to work with a bankrupt treasury and no money to pay them.

The majority of the members concurred with this opinion and no action was taken in the matter.

A committee consisting of President Martin, and Messrs. Dent and Olson and Kauppi was appointed to confer with committees from the various churches to arrange to alleviate any suffering which may arise from the hard times.

WHEAT ON THE UP GRADE.

A Dull But Firm Market With Advancing Prices.

The week closed today with an irregular and advancing wheat market. The movement of wheat from the west has been fair, considering the difficulty of using New York exchange. The receipts aggregated about 43,000 bushels. The shipments were about 50,000 bushels, and the net result was a slight increase in the stock of wheat in store of 50,000 bushels.

The market opened very weak at 5c below last night's close for September delivery, and moved very dull with rapidly advancing prices. Cash wheat was very dull but very firmly held, with buyers and sellers apart. The day's business was confined to very slow trading in September wheat in small lots. Cables were firm and higher, and the Atlantic trade was very good and a better feeling prevailed in all of the markets. The receipts of wheat at the primary markets during the past week were about one-third to two-fifths what they were for the corresponding week last year.

The market closed dull but firm at an advance for the day of 1/2c for cash, and August, 1/2c for September, and 1/2c for December delivery. As compared with last Saturday, the closing prices show an advance of 2 1/2c for cash, 1/2c for September, and 1/2c for December. The following were the closing prices:

No. 1 Hard, cash, 60c; August, 60c; September, 60c; December, 60c. No. 2 Hard, cash, 58c; August, 58c; September, 58c; December, 58c. No. 3 Hard, cash, 56c; August, 56c; September, 56c; December, 56c. No. 4 Hard, cash, 54c; August, 54c; September, 54c; December, 54c. No. 5 Hard, cash, 52c; August, 52c; September, 52c; December, 52c. No. 6 Hard, cash, 50c; August, 50c; September, 50c; December, 50c. HER SAD TALE OF WOE

Order for Publication of Summons in the Divorce Case of Alberta Brown vs. W. J. Brown.

She Accuses Her Unfaithful Husband of Cruel and Inhuman Treatment and Cites Instances.

Another Divorce Case on the Docket for Over a Year Was Called and Continued.

Judges Ensign and Lewis were both at work on the special calendar this morning and cleared it up by 11 o'clock.

An order for publication was made in Alberta M. Brown against William J. Brown, as personal service can not be had on defendant. The parties were married at Detroit in 1884.

Mrs. Brown alleges brutal and cruel treatment as the ground for divorce. She cites several instances. At Detroit Brown choked her and threatened to kill her and the two boys with a shoe knife. Again while they were living at Chicago he came home and smashed the furniture and upset the stove which set fire to the house.

Mrs. Brown says her husband has an irritable and malignant disposition and habitually addresses his wife in obscene and profane language. She avers that it is not safe for herself or children to live with him.

The divorce case of Elmer Simmons against Grace Simmons was continued for one week on account of the absence of witnesses. The suit was begun over a year ago and an exciting chase of the defendant was had to get personal service, but without success and service was made by publication. Simmons is a member of the Pioneer Coal Company.

The following cases were continued: The matter of petition of board of education to appoint commissioners; Catherine A. McCarthy against J. L. Maher et al.; in re petition for a receiver of John Korby; W. P. Heinbach against Emma Stude et al.

The matter of the assignment of Waldorf, Dunsmore & Co. and Samuel L. Rice against Highland Improvement company were stricken from the calendar.

The case of George H. Crosley, as assignee against Charles B. Atwater was dismissed on motion of plaintiff.

In Owen Fargusson against D. K. Pearson motion of defendant for new trial was denied.

Order for final decree was entered in A. W. Wright against Palladio Office Building company for \$49,350.48 on a promissory note.

What Are Diseases of the Nervous System?

ANSWER: All diseases in which the nervous organization of the individual is attacked, sometimes early in the progress of some acute disease, sometimes later on during convalescence from some severe siege of sickness; but it is a rule, that all chronic diseases, during some period in their course, single out the nerves (together with spinal cord and brain) as a favorable seat for their ravages and in this manner so many, who were at one time the very pictures of health, gradually break down and in the end either die in despair or become (what is worse) hopeless, incurable, invalids. It is not necessary for us to enumerate the long list of diseases with which, at times, the nervous system is attacked. The two testimonials we have below will speak for themselves.

Can Weakness Be Cured Permanently?

Harry Miller, an Engineer, living in Duluth, says Yes, and tells you how he feels six months after he has finished a course of treatment with Dr. Speer & Co.

Mr. Harry Miller, an engineer, stopping at the Morris house in Duluth, says: For several years I have been suffering from loss of self-confidence, with extreme nervousness, pains in my head and small of my back. I consulted several physicians, but they all seemed to make no cure. Finally a physician told me I had "a nervous disorder" of the nervous system long before I came here. I had heard of Dr. Speer & Co. in Duluth, and I had read of their cures of nervous diseases. I therefore decided to try them. I placed myself under their care, promising them that I would willingly make the following statement to the public, so that all sufferers from this terrible disease may know where they can be cured at once. "DR. SPEER & CO. cured me in less than two weeks and did exactly as they promised in their advertisements in the various newspapers in the city."

N. B.—I am willing to go before any body of the peace and swear to the above facts.

Can Piles Be Cured in Two Weeks?

Mr. John Albert Monger, owner of The Superior Citizen, the leading weekly newspaper in the Northwest, says they can and tells where this can be done.

MR. MONGER SAYS: For ten years I have been a constant sufferer from that dreadful disease, Bleeding Piles. I have in the last five years consulted many physicians, both here and abroad, but none of them gave me the slightest relief, even a blood operation offered me little encouragement. Two weeks ago I consulted Dr. SPEER & CO. and they were willing to guarantee a permanent cure, without causing pain, without using the knife, promising me no inconvenience or detention from business. I placed myself under their care, promising them that I would willingly make the following statement to the public, so that all sufferers from this terrible disease may know where they can be cured at once. "DR. SPEER & CO. cured me in less than two weeks and did exactly as they promised in their advertisements in the various newspapers in the city."

N. B.—I will willingly answer all inquiries concerning this wonderful cure.

NO COAL FAMINE LIKELY.

Talk of a Shortage in Coal This Year is Unfounded.

Several Eastern trade papers and journals are claiming that the Northwest is to be subjected to a coal famine during the coming winter, on account of the small shipments from the lake ports to the interior Northwestern points this summer.

The idea, however, is not held by the leading fuel dealers and they claim that the Eastern reports are due to the efforts of the calamity howlers. A prominent member of the Pioneer Coal Company was asked his opinion in regard to the matter and, after denying the story, said: "The shipments up to this time of anthracite coal exceed by nearly 7,000 tons those of last year. Up to the first of the present month the clearings from Buffalo alone were 1,157,129 tons as against 1,181,211 tons at the same time last year. There is no danger of it now. In the matter of bituminous coal the shipments are also as large. Reports from Toledo, Lorain, Sandusky and Cleveland, the great soft coal distributing points, show that the receipts have been as large as usual."

Those are the points from which we receive our supplies during the winter. The idea of a famine is preposterous. It only requires about two tons of coal delivered each day during the continuance of lake navigation, at Lake Superior ports, to supply this Northwestern country, and some of the fuel companies alone receive almost that much."

STOLE A SAWLO.

Two Men Fined in Court This Morning on That Charge.

In police court this morning, Emil Tesbeer and Charles Hill were arraigned on the charge of stealing a sawlo valued at \$1 from Scott & Holston. The men admitted that they had cut the log into stovewood, but said that it had been brought in from Minnesota Point with some other driftwood by some boarders of the defendants, who had gone out in a pleasure boat. They also said that they did not know that they had no right to the wood and that all the neighbors picked up stray stuff that way. One dollar and costs was what the judge charged to let them out of custody.

Nine drunks were disposed of—two being sent up and the rest given a suspension of sentence. Five vagrants were sent to the workhouse.

No Cases of Distillation.

Dr. Alden, arriving from Virginia yesterday. He characterizes as false the statement that there is distillation at that place and says that the village is in splendid shape, better considerably than before the fire. Building is progressing finely and while work is undoubtedly not so plenty as a short time ago and money is scarce, yet nobody is leaving.

Col. Geggie will go up Monday and also Commissioner Miller to investigate the condition of affairs.

GARING FOR THE POOR

The Methods Taken by Superintendent Clark to Distinguish Between the Importers and the Deserving.

Many Cases That Fall Upon the County's Care Are Those of Girls Led Astray.

Greater Number of Applications For Aid Now Than in the Same Month Last Year.

Last month Thomas Clark, superintendent of the poor, received 141 applications for county aid. This is by considerable the largest number ever had in any one month, and thus far August bids fair to far outstrip July. In July, 1892, there were only thirty-six applications and about 100 has heretofore been the maximum for even the worst winter months.

In accounting for the large increase due credit must be given to the growth of the city and county; it must be considered that last year this time there were comparatively few people on the range and where now are towns there was only wilderness. But giving full allowance for increase of population, the increase of pauperism is still largely disproportionate. The reason for this is less work and less money earned. In the light of past experience the present conditions present unusual suffering and want among the poorer class the coming winter and hence greater burdens for the county. There can be but one preventive of the state expected—more work for the laborers forthwith, that they may lay up a few dollars to tide them through the long, cold winter. All are agreed as to this, and it is an opinion of nearly equal agreement that the desired work may probably not be forthcoming. Superintendent Clark hopes that there may be an abundant demand for labor, but he does not think so, and therefore he is prepared to hear of almost endless appeals for aid.

As a general rule it may be stated that about 70 per cent of the appeals are found meritorious. To determine the worthiness of an applicant requires close and personal investigation. Importers are sharp and skillful, and clever discrimination is needed to separate the wheat from the chaff. In the past nothing is squandered or wasted and at the same time no worthy person allowed to suffer. If anyone thinks Superintendent Clark has a singular lot him visit the court house some morning bright and early prepared to put in a long, hard day of office work and travel. Mr. Clark is assisted by Mr. Nebelung who spends his mornings at West Duluth and then comes to the court house to relieve Mr. Clark in such direction as may be required. There are assistants at Tower and St. Paul, and Commissioner Bonham looks out for the poor at Tower and St. Paul, and Commissioner Bonham looks out for the poor at Tower and St. Paul.

When Mr. Clark is appealed to he pretty quickly determines from his experience and knowledge of human character whether he is dealing with an impostor or one worthy of charity. Then he hears an assistant, by personally visiting the household or making inquiries, verifies the appeal before giving a final aid. By a state law no family is allowed to receive more than \$50 county aid in any one year except in extreme cases and then by a full vote of the county commissioners. There are several chronic cases in the county—notably at West Duluth—where the family is practically helpless and there seems no good way to avoid giving the relief.

Not the least distressing of the cases coming to Mr. Clark is the young girl who finds herself unfit for work and rapidly nearing the time when besides herself there will be a little stranger to care for. If they have friends or relatives able to aid them they are usually the last people on earth the girls dare appeal to for support, comfort and sympathy in their hour of trial and pain. The one whose heart and purse should be wide open for support and comfort is usually at this critical time far away, or at least without the jurisdiction of the county. Then the superintendent takes hold and makes the best of a very bad job.

The girls, to begin with, generally lie most outrageously in the very matters wherein truth is demanded. Mr. Clark quickly makes up his mind if there is falsehood lurking in the atmosphere, and stoutly refuses help until the truth comes out. It takes from one to three days or a week in extreme cases, for the truth to come out. Now comes the delicate work. If the prospective father can be roped in it is better for the county and often the very best for the girl—often her only salvation for a future life of respectability. Mr. Clark has been quite successful the past month in this direction.

A strong letter to the right party brought from a Michigan town full payment of expenses. In another case where a man had deserted her and the two weeks old baby several months afterwards, a little quiet, determined work apprehended the brute, brought him to his knees and squeezed \$25.00 from his pockets for the weak and helpless mother and babe.

Usually a woman when she puts herself under county care is anxious that the evidence of her frailty shall be quickly placed in some institution where she may never see it more. When the child is born it is different. Mother love is strong, and the Children's Aid society, of St. Paul, always ready and willing to take the little ones and place them in good homes, has received but one baby from St. Louis county in a year.

Mr. Clark has four or five prospective milidates for this "foundlings' home" in and now. But the odds are that mother love will defeat the calculations, particularly if they turn out to be robust and handsome baby boys. When the child is a girl the mother's own sad experience pulls strongly in favor of the things home. If it is a girl the stronger there is a great difference; the boy is able to fight the battle of life, and as the mother sees him, he will grow to strong and fearless manhood, and support in a mother's declining years. Then she leaves the hospital, she in arms, forced with love and hope, to do battle for two.

WEST END PROSPERITY

Extensive Experience The Reason so Many of the Business Men Down There Meet Success.

Oleson & Co. Came From Farmington Six Years Ago And Opened Their Dry Goods Store.

By Understanding Their Business A Growth Has Been Secured Rendering Impartative New Quarters.

One reason why so many of the "West End" merchants are prosperous and successful is that before starting business in Duluth, they had experience in their line elsewhere. A good many business men of this city have become successful because they happened to settle here, the place grew and they were made prosperous by circumstances, not by their own efforts and business ability developed by long experience.

One of the most successful and prosperous firms at the "West End" is that of Oleson & Co. Eighteen years ago, Mr. Oleson started alone in business at Farmington, Minn. Eight years later and ten years ago, Mr. Holling entered the firm. One reason that they keep so near the head of the procession is the fact that each has his specialty. Mr. Oleson doing all the buying and Mr. Holling doing the financing.

Today at the "West End" these hustlers have two stores. At 1003 West Superior street, in handsome brick quarters, is a complete stock of dry goods and notions. This store was opened in June, 1887, six years ago. At 1026 West Superior street boots, shoes and gents' furnishings are carried.

Both branches of business enjoy an excellent trade, numbering among the customers the best people of the "West End," which is highly complimentary, for much of the "salt of the earth" is found among the "West End" residents. The thing that speaks most emphatically for the success of Oleson & Co. is the fact that the business has outgrown present quarters. Both places are over crowded with the goods which they are compelled to carry. Just before this financial depression came an arrangement had been made for the erection of a large brick block in which the entire business could be established but the parties with whom that arrangement was being made, altered their intentions. But arrangements for the erection of a big block in the spring are being made, which will not only enable the two stocks to be consolidated, but more firmly, if possible, put Oleson & Co. at the top of the ladder in every way.

Topic For the Week Beginning Aug. 13. Comment by Rev. S. H. Doyle.

Paul's Epistle to the Romans for the week beginning Aug. 13. Comment by Rev. S. H. Doyle.

An incidental proof of the deity of Jesus Christ is the character of the kingdom which he founded. It is a kingdom of peace, not of war. It is a kingdom of love, not of hate. It is a kingdom of truth, not of falsehood. It is a kingdom of righteousness, not of iniquity. It is a kingdom of holiness, not of uncleanness. It is a kingdom of life, not of death. It is a kingdom of glory, not of shame. It is a kingdom of power, not of weakness. It is a kingdom of majesty, not of meanness. It is a kingdom of dominion, not of servitude. It is a kingdom of freedom, not of bondage. It is a kingdom of righteousness, not of iniquity. It is a kingdom of holiness, not of uncleanness. It is a kingdom of life, not of death. It is a kingdom of glory, not of shame. It is a kingdom of power, not of weakness. It is a kingdom of majesty, not of meanness. It is a kingdom of dominion, not of servitude. It is a kingdom of freedom, not of bondage.

If you endeavorers could only see the boys in Bombay, the Mohammedan boys and the Parsee boys and the Maharatta boys, if you could realize that they are all your brothers, I am sure you would want to do all you could to help them.

One thing you can do to help them for them, and perhaps you can give some of your money to help them. It costs so little to support a boy in one of the mission schools. I am sure you could all do something toward it. Will you not do what you can?—Mrs. F. E. Clark in Golden Rule.

A young girl was once carrying a market basket that was much too heavy for her strength, and another girl, in passing, noticed it and said, "Let me help you." Then she took hold of the handle and lifted half of the load. It was easy to carry after this. The young girl who was over-worked never forgot the kindness of this stranger.

It may be a heavy sorrow, for example, and another girl, in passing, noticed it and said, "Let me help you." Then she took hold of the handle and lifted half of the load. It was easy to carry after this. The young girl who was over-worked never forgot the kindness of this stranger.

Will Keep on Endeavoring.

Some apprehension is expressed in England lest the Endeavor society should become identified with the Boys' Brigade and similar movements which are denominated in many quarters in England as fostering the military spirit and as tending purely to secularism. While the Endeavor movement sympathizes with every good cause our friends in England and America need have no fear that it will not keep strictly to the legitimate religious and spiritual purposes for which it was organized and in keeping to which it has been so blessed.—Exchange.

Homebound to Thee.

Never so faithless a spy, Ent through its depths there reacheth me His still supporting hand, Never so true a comforter, But these his love grows green for me And the scorching sand.

For life who over sea and land Doth homeward guide from farthest strand The bird's wandering way Can surely find my pathway clear, Then let me never yield to fear, Nor lose in darkness day.

Though I am weak and weary still, Lord, do for me Thy chosen will, But this my prayer shall be— Wherever wings my wandering way, Oh, steer me lest I stray, And homeward lead to Thee.

A CHRISTIAN SOCIALIST.

What Charles Kingsley Did For the Advancement of the Masses.

Today the Christian socialist movement inspires such universal interest that it is difficult to understand how little the people of the early part of the nineteenth century realized the misery and need which was manifested in every quarter of their great cities.

Charles saw with a prophet's eye that great need and the question that it involved. Kingsley and his friend Maurice went a step beyond Carlyle in that they aroused men to this need not only by means of literary efforts, but by their practical exertions in behalf of the poor.

To understand the work which Kingsley did we must get a glimpse of England's condition in his day. In the spring of 1818, amid widespread distress, the cloud of discontent grew ever blacker and more threatening until at last it broke into the storm of the Chartist uprising. The breaking out of the revolution in France intensified the danger, and riots were proclaimed in London, Edinburgh and Liverpool. Finally when the rupture came in the rising of the Chartists the government was obliged to fill London with troops in order to restore peace.

When the monetary crisis had passed, the Chartists being completely discouraged and the upper and middle classes beginning to recover from their alarm and to wonder whether, after all, the trouble had been below the surface, a series of articles appeared in The Morning Chronicle on "London Labor and London Poor," which caused all serious minded people to wonder not that London had witnessed riots, but that she had escaped a revolution equal to that raging on the continent.

Parson Lot was the name signed to these articles, and it was the name under which Kingsley did most of his work in connection with Christian socialism. This name was made famous in Politics For the People, Christian Socialism and The Journal of Association, three periodicals which extended from the year 1848 to the year 1852, also by "Alton Locke" and numerous tracts and pamphlets, the best known of which is "Cheap Clothes and Nasty."

Kingsley's character eminently fitted him for the work with which the name of Parson Lot is associated. It presented a contrast of humility and audacity, of distrust in himself and confidence in himself, which gave him a peculiar power for his work. The intensity of his nature was one of his most telling characteristics, for it enabled him to do with all his might whatever he had undertaken. He speaks of it as that "blessed habit of intensity."

So Kingsley entered into the Christian socialist movement with his whole heart and brought all the strength of his powerful personality to act upon the work. The movement probably meant more to him than to any man at that time, for he felt its sacredness and looked upon it as God's cause. He says: "Fear not! He will be with us, and if he is with us, who shall be against us?"

Reports indicate that the Brotherhood of Carpenter and Joiners is increasing rapidly in membership in the Pittsburgh district. The increase within a month recently was said to be fully 30 per cent.

HISTORIAN BILL NYE

He is in South Carolina and Describes How the New Liquor Law is Carried Out.

The History of a Callow Birdling That Has Evidently Come to an Untimely End.

Something About the Flora and Fauna of New Jersey, Not Forgetting the Fierce Mosquito.

(Copyright, 1892, by Edgar W. Nye.)
SITTINGDOWN COUNTRY, S. C. August.
I am here in South Carolina for a time to see how the new liquor law is carried out. Where I am it is carried out most every day, together with from six or eight grownup men who can no longer think just a given point.

A PROPERTY WATERMELON.

A New York man who makes property watermelons with water-proof linings has been fined \$200.00 for this section. These watermelons, I find, are like a great rock in a weary land.

I have written four times to Governor Tillman to inquire if he would be open on Sunday, but so far have received no reply.

At the same time I sent him a receipt for spooj and the option on nine acres of mint growing on my place.

Muskies came out of the river of nights and ate my eye this year, and my shoes were worn and broken, and the sun is hid from me at times, but behind the clouds there is a low priced lining of coin silver quoted at 75 cents, for in the valley in my North Carolina home, there are nine acres of mint waving in the wind.

Tomorrow I will go home. To think that South Carolina, the home of a proud people, a people whose governor once said to the governor of North Carolina that this was dragging between drinks, should now be forced to drink out of the governor's jug or not at all is sad.

I have been making some mathematical calculations after visiting Kansas, Iowa, Maine, South Carolina and other states which claim to have thrived at the rum power, and find after covering Fanning's bridge with figures that the force used in evading the law in those states would raise a middle sized planet two miles in two seconds.

But let us pass on.

I have missed recently from my desk a literary publication that came to me all the spring. It was started not many months ago with the following salutatory:

A callow birdling nestles among you, its unfledged wings eager for flight, eager to penetrate the mysteries of the bright, far-off canopy of blue and reveal amid the dreamed of beauties of the wide, wide world. Whence came faith and hope in each vocal breath, what shall be its fate? Shall it mingle its joyous carol with the wily sibilant of its native grove? Or will you cast it out to seek refuge in some aloof wood-land, there to waste its life in early death, lay, unloved, forgotten and alone?

Can it be that it has been cast out? Oh, I hope not.

I once knew a callow birdling like this, before its eyes were open, to hold its breath for a month after for worms at the edge of its cunning little nest, and one while its eyes were closed and its mouth open a large and pizen yellow jacket came along and stung the glottis of the callow birdling, and it never sang any more.

Avast there, birdling!

See that your eyes are open a good deal of the time and your mouth shut.

Oily Poi of South Mercenary, N. J., asks in a nice letter and a schoolgirl hand if I would mind writing to her something of the zoology of New Jersey for her scrapbook.

The flora and fauna of New Jersey are well worthy the attention of the careful student. She not only leads the Union in the peach, pear and small fruit industry, but counts among her successful tropical fruits the Ben Davis pumpkin and the burglar proof, Mother Hubbard squash.

The zoology of New Jersey gives the thinking mind much to think about, and what is more pleasing to the thinking mind than to have something to think about? Dr. C. C. Abbott has catalogued many mammals aside from the mosquito which belong to New Jersey. Among them are seven species of bats, exclusive of those found at the clubs. Dr. Abbott names five varieties of moles, neither of whom sing, however; several varieties of shrews who do sing; the wildcat, now very rare, a red and a gray fox.

Of the muskrat there are the fisher weasel or stoat, mink, otter and skunk. The latter wings his way as far north in summer as Weehawken, but at autumn time, when the cream candy on the corner of Park row and Broadway has by reason of exposure turned to chocolate caramels, when the maple sugar from New Orleans has been put back on the shelves to wait for another season.

and the sassafras has turned to gold, when the boat bands put big green bags on their harps and begin to sell chestnuts on the street, when the hand organ man wraps his eremona and monkey in red damask and goes forth buying second-hand bottles and rehabilitating hats, the glad thrill of the skunk's night song is no longer heard in New Jersey, but far to the southward, along the banks of the Potomac, you will find him piercing the gloom of the November night with his sad but searching song.

The woodchuck, dolphin and codfish are natives of New Jersey. Also the turkey buzzard, low necked clam and politician. People who think that the musquito is the only mammal of New Jersey know little of our fauna.

Editor Haggard, who visited New Jersey in his mind several years ago, said: "At the kraal in Holokos we provided ourselves with a supply of bling and elephant guns, secured 20 or 30 natives armed with crossbows and sharp daggers, and began to penetrate the jungle. We had not gone far when out of the supply of bling ran short, and as we began to trek toward the interior my men began to fear that we might be killed. At this time my gunbearer, Tipu Raju, of Weehawken, gave a yelp of delight, for he had struck the spoor of a Fulton market wagon. Hunger gave us all energy, and as we continued to trek westward I could see that my men would make a desperate struggle rather than die of starvation.

"Opening a small boobyack of native spooj and giving each a measureful with a loaf of meale cake and an elephant's tongue on toast, together with the sweetest of a hippopotamus with green peas, our men were soon ready to make an attack on the wagon, which was also treking westward as the crowd flies.

It was not long till we heard the crashing of twigs in the jungle, and before we could get to the wagon we had begged the entire delivery wagon, containing veal cutlets, skinned and unskinned, shad, sirloins, tenderloins, fillets, rib roasts, spare ribs, soup bones, pig feet, oysters, and other native fauna of New Jersey, and having killed the voracious driver we carried him away to Railway to net in the capacity of mystery for future years.

Though Mr. Haggard touches very lightly upon the zoology of New Jersey, one can see that the field is very wide indeed, and with his African vocabulary and with a gallon or two of New Jersey spooj I think I could write a very interesting jungle tale, locating it within 10 miles of New York city. A hearty imagination, some Conco waders, and the right brand of spooj will make the zoology of New Jersey look like Noah's ark in the midst of a conflagration at sea.

P. S.—I forgot to notice the spooj of New Jersey in the list of her zoological wonders. With it the field is enlarged, and one can see crocodiles with red stomachs and unicorns with purple tails—so I am told.

And now comes a note from a little boy in the public school of Lorillard, a tubercle case in this state, inquiring about Socrates and how he stood at home after his name had become famous over the world.

Socrates suffered as do most great men who return to their birthplaces and seek to improve their old neighbors. Going back to Athens, where he was called "Sokk," even in his full meridian, it is strange that he should have felt down at the heels.

I give below a notice of his lecture, taken from the Athenian Daily Astorian, which, it is said, was followed by the students of Socrates, May 20, 470 B. C.

A rather light audience meandered into and melted around in the annex of the Astorian last evening to listen to Socrates, whom we have heard so highly spoken of. Certainly, from what has been said of him, especially by our vile contemporary, the Athenian Evening Rubber Stamp, we had reason to believe that Old Sokk, the Clab Wagon, would paralyze Athens in three rounds with bare knuckles.

So, it is said, the audience was highly disappointed, and the Athenian Evening Rubber Stamp, we had reason to believe that Old Sokk, the Clab Wagon, would paralyze Athens in three rounds with bare knuckles.

Train-whistles to any one who would be either absent nor fairly during the entire course. After a little discussion the prize was awarded to the author of the hall.

The gestures of this great man came yesterday about an hour or so after he got here himself, and they were about that much behind during the entire lecture. In our opinion, the press has made Socrates and given him a temporary notoriety which in two years will be as dead to skin. His gestures last night were his hands, which were doubtless intended for some other lecture.

His voice is a little bit thinner than his lecture, and his lower register does not seem to take the chill off the hall. There is his lecture last night with wet feet, having been completely into their overcoats his, jobs in the early part of the evening, and nothing that he said seemed to cheer them until at the close he struck a little chord of sadness and quiet.

Possibly we expected too much of Socrates, as his record, of course, was not made as a lecturer, and he therefore cannot expect to take rank along with some of our local educational lecturers. We had heard so much about the dramatic upstart that we think after all, we were the sentiment of our best people when we say that Socrates is a grandly over-estimated and vulgar man whose fame will fade as the roles fade again.

There is his lecture last night with wet feet, having been completely into their overcoats his, jobs in the early part of the evening, and nothing that he said seemed to cheer them until at the close he struck a little chord of sadness and quiet.

Possibly we expected too much of Socrates, as his record, of course, was not made as a lecturer, and he therefore cannot expect to take rank along with some of our local educational lecturers. We had heard so much about the dramatic upstart that we think after all, we were the sentiment of our best people when we say that Socrates is a grandly over-estimated and vulgar man whose fame will fade as the roles fade again.

His voice is a little bit thinner than his lecture, and his lower register does not seem to take the chill off the hall. THE CURRENT LITERATURE.

A Glance at the Contents of the August Periodicals.

The Review of Reviews for August has, for one of its features of vital interest, brief communications from twelve prominent professors of political economy and finance upon the present monetary situation. The letters were written in response to the editor's request for the opinion of these gentlemen upon the best course for congress to pursue in the extra session regarding silver. The twelve writers are President Francis A. Walker, of the Massachusetts Institute of Technology; Charles F. Johnson, of the University of Minnesota; Professor F. W. Taussig, of Harvard University; Chancellor James H. Smith, of the University of Wisconsin; Professor Seligman and Richmond Mayo-Smith, of Columbia college, New York; Professor Henry C. Adams, of the Michigan university; Dr. Sidney Sherwood, of the Johns Hopkins university; Chancellor Rogers, of the Northwestern university; Professor J. Macy, of Iowa college; Professor John R. Commons, of the state university, and Dean Juddson, of the Chicago university.

It happens that every one of these gentlemen distinctly declines for the immediate repeat of the Sherman silver purchase act. Beyond their points of view are quite various, and their discussion is extremely interesting. No recent contribution to the discussion of monetary problems is so timely and complete as this group of letters from well-known economic thinkers.

"The Fatal Number," a Strange Tale of Monte Carlo Gamblers' Superstitions, is the title of a very striking story in the August of August 7. The author introduces the reader to a gay diner to which a party of thirteen, revelers invite a broken-down victim of the gaming tables, and the story is told in a table; then to the gambling hall, where the old man sits dead in his chair while a coin inadvertently, pushed on a number before him with time, and again till the dead man has a fortune; and finally, to his burial by the guests at the corner dinner, where a roulette-ball is set rolling, and the coin is lowered in the grave. The pathetic tragedy of the old man's life is interwoven with one much more terrible, and the entire story is one that one does not soon forget.

Blue and Gray for August is called a midsummer fiction number, and this title is well borne out by several novels of unusual merit. "Battle Bonds," by Dr. John R. Commons, is a well-written tale of the Tennessee mountains, containing some exquisite descriptions and good dialect. Mrs. Louise Howard Bruce contributes one of her characteristic sketches, "A Soldier's Wedding," into which love and warfare are skillfully interwoven. "An Arrested Bullet," by H. H. Hoke, is a weird story of the devil's den, and a bullet which reached its mark after many years. "Elisha's Blessing," by Emma Willmet, is a touching story of a young man's life, and a well told story to leave a lasting impression.

Aside from the fiction, the most notable feature of the issue is the editorial, "The Devil's Den," by H. H. Hoke, which is sure to attract considerable comment. Louis Goldt tells, in a chatty style, the story of the devil's den, and a bullet which reached its mark after many years. FIVE CREMATED.

Thirty Guests in a Small Hotel in Chicago
Were Caught Like Rats in a
Trap.

Building Took Fire and Before They Were
Aroused All Avenues of Escape
Were Closed.

Five People Burned to Death, Five Others
Will Probably Die and Six Others
Injured.

F. A. Coon, Wife and Child, of Lake City,
Were Injured, the Latter Two
Fatally.

CHICAGO, Aug. 14.—From five to eight
people are reported to have lost their
lives in a fire which partially destroyed
the Senate hotel on Madison street this
morning between 5 and 6 o'clock. One
man jumped from a third story window
and was killed. The others were suffo-
cated and burned to death. The first
body to be recovered was that of Harry
Godfrey, the 7-year-old son of J. God-
frey, of Buchanan, Mich. The loss on
the building and contents is not heavy.

A restaurant occupied the ground
floor and the Senate hotel the two upper
ones. It contained thirty-six rooms and
held thirty guests last night. The blaze
started in the office on the second floor
and spread rapidly through that and the
upper rooms. Before the guests could
be warned the flames had cut off their
escape from the stairway and they were
burned to death in the trap.

As fast as the dead were taken out
they were taken to the morgue. Four
bodies have been recovered. They are
those of the Godfrey boy, and two men
and a woman. The latter have not yet
been identified.

Later—Five people were killed and
five others were so badly injured that
they can scarcely recover. At the Cook
county and Mercy hospitals six others
are lying with pain. The list of
killed and injured is:

DEAD.
Harry Godfrey, 7 years of age, of
Little Rock, Ark.
Edward Short, of Chicago, burned and
jaundiced by the smoke, died.

Unknown woman, 5 feet 6 inches in
height, burned; removed from bed by
firemen.

Unknown man, removed to county
hospital unconscious and died fifteen
minutes later.

Unknown man, 5 feet 8 inches in
height, burned in bed.

INJURED.
Jay Godfrey, hardware merchant, Lit-
tle Rock, Ark., burned about head and
shoulders, removed to hospital; will re-
cover.

Mrs. Godfrey, wife of above, slight
burns on shoulders.

Grace Godfrey, aged 13 years, exten-
sive burns, will probably die.

Fill Utley, aged 17, nephew of Jay
Godfrey, burned about head and arms
and cut by glass in breaking window
for aid; taken to hospital; will recover.

F. A. Coons, Lake City, Minn., cut
by glass about head; taken to Mercy hos-
pital; will recover.

Mrs. F. A. Coons, burns and cuts about
shoulders and breast; will die.

Flora Coons, aged 15 years, found al-
most suffocated; removed to Mercy hos-
pital; recovery doubtful; will recover.

R. L. Morton, Syracuse, N. Y., cut
about shoulders; removed to Mercy hos-
pital; will recover.

Unknown man, supposed to be Wil-
liam Kronberg, a stage hand at the
Schiller theater, badly burned about
head and face; will probably die; re-
moved to county hospital.

Unknown man, taken to county hospi-
tal, is about 28 years of age and badly
burned; can scarcely recover.

Unknown man about 21 years of age,
terribly burned about head and face; is
unconscious at county hospital and will
die.

CROWDS AT THE FAIR TODAY.
Special Trains Chartered For One Fare For
The Round Trip.

WORLD'S FAIR GROUND, CHICAGO,
Aug. 14.—The attendance at the fair to-
day will be largely augmented by three
train loads of excursionists who came on
special World's fair trains. One was
from Fremont, Neb., and brought 300
people for a single fare for the round
trip. The train was chartered by the
Fremont normal college.

The second load of visitors came from
Cleveland and included 300 Sons of St.
George, who will remain here long
enough to take part in the celebration of
British day next Sunday. By a strange
coincidence the municipal reception to
the lord mayor of Dublin takes place on
the same day, but there is no fear that
the two processions will clash, as they
would if the scene was transferred to
Ulster and the parading force were
orangemen and home rulers.

Six hundred employees of the Pennsylv-
ania railroad system came in on a
special train from points east of Buffalo
to enjoy the sights and study the exhibits
which affect their particular line of
work. In the party are engineers, me-
chanics, brakemen, station agents, con-
ductors and employees of the company's
shops. The Pennsylvania provided the
men with free transportation, and their
presence on the grounds today is indi-
cated by the keystone badge of the rail-
road.

While the trunk lines east and west
maintain their World's fair rates above a
single fare for the round trip, it is ex-
pected that the plan of chartering trains
at a cost to each excursionist of less than
a single fare will have the desired effect
of keeping up the daily average of 100-
000 and give all who live far away an
opportunity of seeing the fair.

THE CAPITAL WAS IMPAIRED.

Troubles of a Brooklyn Bank That Has Sus-
pended.

NEW YORK, Aug. 14.—A morning
paper says: One fact was gleaned con-
cerning the suspended Commercial
bank of Brooklyn, that may prove of
importance. When in 1888, Seth L.
Keeney became president of the Com-
mercial bank he found the capital im-
paired through heavy overdrafts by Paul
C. Greengard, an operator in real estate and
now a hotel proprietor in Saratoga, and
G. A. Hassell, a teller in the New York
Clearing house.

Mr. Keeney, after consulting with the
other directors, gave his title for \$20,000,
the seven other directors doing the same.
It was thought that this \$20,000 would
keep the bank solvent. It is now learned
that in addition to his note of \$20,000,
Mr. Keeney lent the Commercial bank
\$20,000 from his private fortune. Two
questions are suggested by the knowl-
edge concerning the bank's solvency. Did
he withdraw it from the bank as he
had a legal right to do, and when? If
recently, that may account for the diffi-
culty in which the bank now finds itself.
Is this \$20,000 still under the control of
the Commercial bank? If it is, then Mr.
Keeney will have to take his chances on
the finding of the bank examiner as to
the solvency or insolvency of the bank of
getting back his money. It is known that
corporations in which Mr. Keeney is in-
terested have been spending large sums
of money lately and possibly that, not
foreseeing the present stringency of the
money market, he withdrew his loan to
invest the money otherwise. A friend of
President Keeney said yesterday:

"Mr. Keeney has been under a terrible
mental strain for the past three days.
He could not have been otherwise as he
knew what was coming."
Nearly all the other depositors express
confidence in the bank's solvency. They
believe they will get their money.

IS SHE AN ADVENTRESS?

A Woman Who Wants \$50,000 From Col.
Breckinridge.

CHICAGO, Aug. 14.—A Herald special
from Lexington, Ky., says: Col. Breck-
inridge's many friends here unite in say-
ing that the suit filed against him in
Washington Saturday by Miss Madeline
Pollard for \$50,000 for breach of promise
of marriage and seduction is the result of
spite work. His friends all believe him
innocent of the charges. One close
friend of Col. Breckinridge and a vet-
eran of the Confederate army said he
last night that he believed Miss Pollard
to be an adventress. He said:

"I have seen her in the city, in-
scribed respectively Madeline Vinton
Pollard, Madeline Breckinridge Pollard
and Madeline Blackburn Pollard. She
was as much of a social climber as the
friends and relatives of the Vinton
the Blackburns and the Breckinridges
when among the admirers of the Breck-
inridges."
"She impressed herself on Charles
Dudley Warner so much that he intro-
duced her into the city society."
It now turns out that she promised to
marry the old gardener, James Rhodes,
and spent \$150 toward educating her.
After getting her education she refused
to have anything to do with the old fel-
low, and he died with a broken heart."

MANY MEN WANT WORK.

The Situation in Denver Was Strikingly Illus-
trated Today.

DENVER, Col., Aug. 14.—The great
disparity between the number of men
out of employment and the amount of
work to be had was strikingly illustrated
this morning, when 2000 unemployed
men gathered near the place where work
on the new sewer was to begin. There
was work for only forty men.

A crowd of about 500 Italian laborers
gathered near the spot, but were not
allowed to approach by the crowd, which
exhibited considerable feeling but was
quiet and orderly. Only three Italians
were given work and the place was left
to be old residents of the city. The pro-
posed public improvements cannot pos-
sibly supply work for all the unem-
ployed.

RAISED A BIG HOWL.

Spain Will Not Require Payment of Customs
Duties in Gold.

MADRID, Aug. 14.—The proposition
of the government to compel the pay-
ment of all customs duties in gold, which
would have been equivalent to a heavy
increase in those duties, evoked protests
from commercial circles in every part of
the country. So numerous have these
protests become that the government has
now disclaimed any desire to require the
payment of the duties in gold.
The cabinet has authorized Senator
Mauro, the colonial minister to negotiate
a new loan of \$5,000,000 to be secured by
Cuban bonds. The money thus raised
will be used to pay the floating debt of
Cuba.

Bank Note Circulation.

WASHINGTON, Aug. 14.—Since the 1st
of August the treasury has issued United
States bank notes on loan to the extent
of \$5,777,495. Bonds have been de-
posited to secure circulation to the
amount of \$12,111,350 and United States
bank notes to the amount of \$2,668,250
have been ordered printed. The national
bank note circulation of this standing
is today \$18,140,750, an in-
crease of more than \$5,000,000 since
Aug. 1.

Returned to Washington.

WASHINGTON, Aug. 14.—Secretaries
Gresham and Carlisle and Postmaster
General Russell returned to Washington
from Deer Park and Oakland at 6 o'clock
this morning.

Representative Oates' Illness.
WASHINGTON, Aug. 15.—Representative
Oates, of Louisiana, who was struck
by a car last week, is not so well today.
When he will be able to resume his
duties in the house his physician cannot
say.

Clothing Assign.

CINCINNATI, Aug. 14.—May Bros.,

and liabilities about \$100,000.

DOINGS OF CONGRESS.

Speaker Crisp Appointed Three Committees
and the Silver Debate Was Continued
By Mr. Boatner.

Senator Voorhees Introduced His Bill to In-
crease the Note Circulation of the
National Banks.

Otto H. Boyesen, of North Dakota, Has
Been Nominated to Be Consul at
Gothenburg, Sweden.

WASHINGTON, Aug. 14.—The speaker
announced the following committee ap-
pointments this morning:

Enrolled bills—Messrs. Pearson, chair-
man; Russell (Georgia), Latimer, Hines,
Hager, Adams and Gillett (New York).
Accounts—Messrs. Rusk, chairman;
Paynter, Tate, Mulchler, Ikert, Wells,
Post, Wright (Massachusetts), Marvin.

Mileage—Messrs. Lynch, chairman;
Slatt, Pendleton (Texas) and Mahon.
The silver debate was then resumed.
Mr. Boatner (Democrat, of Louisiana)
making the initiative speech in favor of
free coinage. The discussion is contin-
ued in a rather desultory manner and
attention accorded it is decidedly listless.
Mr. Layton (Democrat, of Ohio) advo-
cated the repeal of the purchasing
clause, relying upon the good judgment
of a Democratic congress to pass subse-
quently a law which would bring perma-
nent relief to all classes of the people.

Mr. Pennington (West Virginia) advo-
cated the Wilson bill. Mr. Boatner was
followed by Mr. Layton (Democrat, of
Ohio) for unconditional repeal, and by
Mr. Patterson (Democrat, of Tennessee)
in the same line. Mr. Bailey (Democrat
of Texas) then argued for free coinage.

TO INCREASE CIRCULATION.

Senator Voorhees' Bill to Increase Bank Note
Circulation.
WASHINGTON, Aug. 14.—The senate
passed the house resolution providing
for a celebration of the anniversary of
the laying of the corner stone of the
capitol and then engaged in the reception
of petitions and memorials.

Senator Voorhees introduced his bill
authorizing national banks to issue notes
to the full value of the bonds deposited.
It is accompanied by a letter from Sec-
retary Carlisle recommending its pas-
sage. The bill provides for the issue of
\$10,000,000 of notes, and says it will add
\$10,000,000 to the circulation. Referred to the finance
committee.

The senate passed the house resolu-
tion for the payment of the session em-
ployees of the two houses at the present
session. Numerous petitions on the
silver question were presented and one
for the annexation of the Hawaiian
islands—the latter coming from the San
Francisco chamber of commerce.

Senator Palmer introduced a bill to
provide for the erection of a government
building at Chicago. It directs the erec-
tion of a commodious and sufficiently
fire proof building upon the present gov-
ernment site, to be finished and ready for
occupancy within eighteen months after
the approval of the contract. It ap-
propriates \$1,000,000 for the purpose.

Senator Hill introduced a resolution,
which lies on the table, declaring the
sense of the senate that nothing but
financial legislation shall be undertaken
at the present special session.
Mr. Vest called up the resolution
offered by him last Tuesday in favor of
bimetallism and the free and unlimited
coinage of both gold and silver, and ad-
dressed the senate on the subject. He
declared that the Sherman act is hopeless
and hopeless dog, with no one to give it
a bone and without a kennel to hide its
dishonored head, but declared, neverthe-
less, that he would not vote for its repeal
without a guarantee of silver as money
metal.

PLUMS FOR DEMOCRATS.

A Batch of Appointments Announced by the
President.

WASHINGTON, Aug. 14.—The presi-
dent today sent to the senate the fol-
lowing nominations: Edward C. Butler,
of Massachusetts, to be secretary of le-
gation to Mexico; Otto H. Boyesen, of
North Dakota, consul at Gothenburg,
Sweden; George C. Skinner, pension
agent at Pittsburg, Pa.; Thomas J. Lowe,
secretary of Oklahoma; James C. Cald-
well, receiver of public moneys at King-
fisher, Oklahoma.

To be registers of land offices—Wil-
liam D. Lindsay, of Guthrie, O. T.;
Edward G. Spilman, of West Virginia,
at Kingfisher, O. T.; Edwin I. Harman,
at Denver; John J. Beavers, at Little
Rock, Ark.

William Perry, United States attorney
for the district of Kansas. A number
of promotions of minor officers in the
revenue cutter service.

Heavily in Debt.

CHICAGO, Aug. 14.—Fred Hempy,
president and treasurer of the Monroe
Hotel company, of Hyde Park, has filed
a bill in the superior court petitioning
for the appointment of a receiver to
wind up the affairs of the concern. The
company is incorporated with a capital
stock of \$300,000. Hempy states that
\$350,000 was spent in erecting the hotel
and that the company are in the throes
of \$100,000 liabilities.

Professor Newell Dead.

BALTIMORE, Aug. 14.—Professor
Newell, one of Maryland's foremost edu-
cators, with national reputation as au-
thor of school works, died at Havre de
Grace this morning. He was born in
Belfast, Ireland, in 1824.

Depositors Secured.

PULASKI, Tenn., Aug. 14.—The Peo-
ple's, the Citizens' and Commercial
bank and Trust company suspended
payment this morning and will have ad-
vice of the sixty day law. All sol-
vent and depositors are secured.

BRITANNIA IN THE LEAD.

Five Yachts, Including the Navahoe Started in
a Race Today.

LONDON, Aug. 14.—The regatta of the
Royal Albert Yacht club, of South Sea,
of which the duke of Edinburgh is com-
modore, took place today. The Albert
cup was the prize for yachts above 40
rating. The Navahoe, Britannia, Sata-
nia and Calluna were the boats in this
class that started.

The course was from a mark boat off
South Sea to and around the Nab beacon,
then to and around the west middle buoy
and back to the mark boat. The course
was sailed over twice. There was a good
sailing breeze.

The Sataunia was the first away, fol-
lowed by the Navahoe, Calluna and
Britannia in the order given. This order
was maintained without material change
until the beacon was rounded. The
Britannia then took the lead, with the
Navahoe following close behind her.
The Britannia finished first. The
Sataunia was second. The Calluna ran
ashore and has lost all chance of win-
ning. The Navahoe gave up the contest
some time before the race was finished.

RELIGIOUS RIOTS ENDED.

Mohammedans and Hindus Came into Con-
flict at Bombay.

BOMBAY, Aug. 14.—The religious riots
that prevailed with greater or less in-
tensity in this city for three days past
have ended. The Mohammedans and
Hindus, whose smoldering animosity
was kindled into flame through religious
holidays of both sects falling upon the
same day, have been awed by the display
of force made by the authorities and
order prevails everywhere.

Troops are still stationed in various
parts of the city, however, but they will
shortly be withdrawn. Many of the
business places that were forced to close
through fear of being looted by the
rioters are open today, and it is thought
that tomorrow everything will be going
along as usual.

The Cup Defenders.

NEWPORT, R. I., Aug. 14.—The re-
mainder of the New York Yacht club
fleet which did not go to the Vineyard on
Sunday responded to the signal from the
flagship this morning and prepared for
the run eastward. The fleet did not
start with the three other cup defenders.
The start was made from off the light-
ship about 10 o'clock. The air is clear
and a brisk breeze blows from the north-
west. The sea is calm and conditions
are most favorable for a fine run and
good racing.

The Jetty at San Diego.

SAN FRANCISCO, Aug. 14.—Capt. S. R.
Smith, of Portland, Ore., has been not-
ified of the acceptance by the govern-
ment of his figures for the construction
of the jetty at the entrance of San Diego
bay. His bids, which were the lowest,
were \$16.25 per ton for rock work, \$12
per cord for brush and \$5.00 per foot for
building the 2000 feet of trestle and
track. The work will be commenced in
about three weeks.

A Republican Caucus.

WASHINGTON, Aug. 14.—A call has
been issued for a Republican caucus im-
mediately after the adjournment of the
senate today if the hour is not too late.
The primary purpose is to dispose of the
minority patronage, but the situation in
the senate will probably come under dis-
cussion.

The Kamina Released.

NEW YORK, Aug. 14.—The Anchor
line steamer Kamina, which arrived at
this port August 3 and which brought the
first case of cholera this season, was re-
leased from quarantine this morning at
10 o'clock and proceeded to her dock.
Since her detention at quarantine she
has been thoroughly cleaned and disin-
fected.

Arrivals of Gold.

NEW YORK, Aug. 14.—The La Nor-
mandie brought 1,570,000 francs gold.
Ladenburg, Thalmann & Co. have \$300-
000 gold on the steamship Yucatan from
Havana due here today.
The Ems, from Bremen, sailed from
Southampton for New York at midnight
last night. She has on board consign-
ments in gold amounting in value to £1-
450,000.

Lumber Company Assigned.

CHICAGO, Aug. 14.—The A. R. Beck
Lumber company, with yards and offices
at South Chicago, assigned this morning
to the Equitable Trust company. The
assets are placed at \$511,000; liabilities
at \$350,000.

Issue of Silver Dollars.

WASHINGTON, Aug. 14.—The issue of
standard silver dollars from the mints
and treasury offices during the week
ended Aug. 12, 1893, was \$879,955; for
the corresponding period of 1892, \$526-
045. The shipment of fractional silver
coins from the 1st to the 12th inst. aggre-
gated \$147,774.

Entirely Out of Danger.

NEW YORK, Aug. 14.—John W. Mac-
Kay's physician announced yesterday
that his patient would probably be able
to leave the city in a few days. All
danger is past.

Running Half Time.

ROCKVILLE, Conn., Aug. 14.—Beld-
ing Bros. & Co., silk manufacturers, em-
ploying 425 persons, today began run-
ning half time, three days a week, on
account of business depression.

Warehouse Burned.

BRIDGEPORT, Conn., Aug. 14.—Fire
this morning destroyed the large ware-
house of M. H. Rogers. The building
contained a large quantity of baled rags
and the loss is estimated at \$28,000; in-
surance \$7000.

Failed to Open.

SPRINGFIELD, Mo., Aug. 14.—The
Bank of Springfield, with a capital of
\$100,000, failed to open this morning.
The St. Louis & San Francisco railroad
generally had a large deposit in this
bank.

Sentenced to Death.

NEW YORK, Aug. 14.—Recorder
Smyth this morning sentenced Dr. Bu-
chanan to be electrocuted during the
week beginning Monday, Oct. 2. Bu-
chanan was convicted of wife murder.

The chamber of commerce meets to-morrow morning.

AMUSEMENTS.

O'Dowd's Neighbors.

Mark Murphy will, with the assistance of his company of comedians, present their latest New York success, "O'Dowd's Neighbors," at the Temple tomorrow evening. "O'Dowd's Neighbors" is one of those theatrical productions for which you cannot find a name in the dictionary, but call it what you will, it is a winner from start to finish. Sam J. Ryan, who has the second best part in the piece, is a very clever comedian, and was the original in the part of Marcus McNab. An addition to the company this year is Miss Clara Throppe, Miss Annie Fordling, Miss Minnie Williams, Miss Mona Win-ton, Miss Rose Leigh, and many other ladies. Miss Jennie Murphy, who plays the part of the Widow Reilly, is a great favorite among comic opera singers.

An Announcement.

It is a fact acknowledged by all the leading educators of business colleges that stenography and typewriting are the principal branches taught in the commercial schools of the present time. The Graham school of stenography and typewriting, a practical business training school devoted exclusively to these studies is thoroughly equipped with all the latest improved apparatus used in such schools. In session six days in the week. A full corps of certified teachers whose ability to impart instruction in these branches is unquestioned is employed. Special inducements offered to all students enrolling from present date until October 1st. Torrey building.

FAVORS CONTESTANTS.

Assistant Secretary of the Interior Renders Decisions in Some of the Swamp Land Cases.

In Every Case the Land Commissioner's Decision Favoring Contestants Has Been Sustained.

Canosa Farmers Will Petition the Duluth City Council to Establish a Public Market Place.

This morning the local United States land office received copies of the decisions of the first assistant secretary of the interior, dated Aug. 1, 1893, affirming the decision of the land commissioner in swamp land contest cases as follows:

Peter Larson vs. State of Minnesota, St. Paul & Duluth railway intervenor, se 1/4 of ne 1/4 section 33 and the sw 1/4 of the ne 1/4 section 31, township 59, range 18; decision for plaintiff.

Nicholas Decker vs. State of Minnesota, se 1/4 of se 1/4 section 8; sw 1/4 of nw 1/4 and n 1/2 of sw 1/4 section 9, township 62, range 13; decision for plaintiff.

Michael Connon vs. St. Paul & Duluth Railway company, lot 5 and 1/2 of section 11, township 63, range 18; decision for contestant.

Edgar A. Coffin vs. St. Paul & Duluth Railway company, e 1/2 of sw 1/4 and sw 1/4 of section 30, and nw 1/4 of section 31, township 59, range 18; decision for contestant.

TODAY'S COUNCIL MEETING.

Canosa Farmers Will Petition For a City Market Place.

The council meets tonight. Up to now the prospects for a spicy and "scrappy" meeting were not bright, aside from the fact that Alderman Cox as chairman of the committee on public offices and officers, has made no report on nominations lately. There will be some bills of course and a certain amount of dry routine matters. Nineteen farmers in Canosa township have filed a petition asking that a market house be established. They say that at present they are compelled to peddle out the products of their gardens and that if a market place should be established, they would go into market gardening on a much larger scale.

COULD NOT PAY HIM.

Requirements of the Law Must be Met to Get Wolf Bounties.

A resident of Catlin, a little town on the Duluth & Winnipeg, appeared before Auditor LaVaque this morning with a wolf skin and demanded the \$5 bounty. Mr. LaVaque was unable to pay him because the requirements of the new law had not been met. First, the entire carcass must be taken before the chairman or a majority of the town supervisors. They view the remains and see that the carcass is destroyed. A certificate with the scalp, including both ears entire, and a certificate that the carcass was seen by the supervisors, the applicant appears before the auditor and gets an order for the money, after subscribing to an iron clad oath which testifies among other things that the hunter "did not spare the life of any wolf within his power to kill."

Too Long a Jump.

A. Austin who is a guest of the St. Louis hotel came very near losing his life yesterday afternoon. He was on the dock near the Innan office and made a jump to get on the tug J. L. Williams when it was being towed out. His right foot caught on the boat and held fast but for which fact he would have fallen and been cut by the wheel. As it was his leg was lacerated somewhat. He was released from his position as soon as observed and was driven to the hotel where his injury was dressed.

Labeled a Tug.

The tug J. D. McFadden has been labeled because of an unpaid coal bill amounting to \$238.80 due the North-western Fuel company. Deputy Marshal R. A. has been "laying" for the tug for ten days and managed to catch her this morning by arising, an hour or two earlier than usual.

Notice to Parents.

AFFLICK DISCHARGED.

Belle Stanley Did Not Prosecute Her Worthless Check Charge.

In police court this morning several drunks were tucked away and several more with a number charged with vagrancy were sent away.

Lawrence Delinski, a resident at Rice lake, was arraigned for assault in the third degree, on Thomas Broske. It was alleged that Lawrence did beat and choke the wife of his bosom, Annie Delinski. Delinski's son put up \$25 bail until tomorrow afternoon when a jury trial will be held.

Henry D. Ehle, who has a contract for clearing off eighty acres of ground at Lakeside, for refusing to satisfactorily dispose of the brush, was up for violating the fire ordinance, on complaint of Fire Warden Applebagen. The trial will be held Wednesday as Ehle pleaded not guilty.

The case against Robert Afflick, charged with securing money under false pretenses, was dismissed. It was much to the disappointment of the Sons of Ease who each day infest the court room. It will be remembered that Belle Stanley accused the defendant of passing a worthless check in her sub-treasury of Hades, down on St. Croix avenue.

Mr. Barlow Out Again.

The many friends of A. C. Barlow will be pleased to hear that he has so far recovered from his attack of typhoid fever as to be able to climb the city hall stairs into the comptroller's office this morning. It is ten weeks since Mr. Barlow was taken down from his perch and he has been so severe and dangerous that there was no fun in it.

INSTANTLY KILLED.

A Coal Heaver at Superior Struck by a Bucket.

John Robendorf, a coal heaver, was instantly killed in the hold of the Thomas Wilson at Ohio dock No. 2, West Superior, this morning. Robendorf was working in the hold and the gearing of a bucket became detached, allowing the bucket and a ton of coal to fall on him. His skull was fractured and neck cut and bled.

Robendorf was 27 years old and unmarried. He was a brother-in-law of S. M. Holman, bookkeeper for the Standard oil company at West Superior. An inquest is being held this afternoon.

Outrailing the Weather Signals.

Under instructions from the chief of the bureau the display of weather signals will hereafter be discontinued at lake stations between June 10 and August 31 each year. When winds of velocities sufficient to justify cautionary signals under the present rules are anticipated, information signals will be displayed, and information concerning the existing conditions given. The widest possible circulation among the vesselmen and others interested. Under the new arrangement Forecaster Bronson can order signals down at any time without waiting for orders from Washington.

Overproduction of Tonnage.

The Marine Review expresses the opinion that the present depression in lake shipping is due about as much to an overproduction from the shippers as to the demoralized condition of general business, and in proof of its conclusion furnishes figures of the traffic through the Sault canal, which thus far show a decrease of only 350,000 tons from the same time a year ago. While the views of the Marine Review may hold good as to the larger class of tonnage, they can hardly be accepted as tenable in connection with the lumber trades of Lakes Superior, Huron and Michigan. The stagnation in that direction, which is sending so many carriers out of business, is the direct result of the financial stringency, which has put an end to lines of credit and compelled manufacturers to pile their product up in the mill yards until such time as they can find cash purchasers.

RACING MATINEE.

A Series of Interesting Events Arranged For Saturday at the Woodland Track.

Preparations are being made for a racing matinee to occur on the coming Saturday at the pretty race track at Woodland Park and local horsemen and wheelmen are on the qui vive over the question of supremacy. The matinee will be held on the recent race meeting failed to satisfactorily decide the matter of who owned the fastest horse and everybody interested in horse racing is anxious to witness a meeting of the kings to settle the vexed question. The owners of horses have consented to enter for a race or two so that the public will have an opportunity of watching several exciting contests. In addition to a trotting and pacing race there will in all probability be a bicycle race for local wheelmen. The Duluth club having secured the sanction of the League of American Wheelmen to enter for the prizes. The track will be put in condition for the event and where there is so much friendly rivalry existing between the local horsemen the different contests can scarcely fail to evoke much enthusiasm. The matinee will be held early in the afternoon on Saturday when extra cars will be run on the Woodland line to accommodate the lovers of good horse racing.

ADVERSE DECREE

The Bering Sea Tribunal Has Decided
Against This Country's Claim of
Exclusive Jurisdiction.

It Holds That Russia Never Asserted Exclusive Rights Prior to the Cession of Alaska.

Right of United States to Property in Seals Outside Three-Mile Limit Partially Conceded.

Hereafter Seal Life Will be Fully Protected by Virtue of an International Agreement.

PARIS, Aug. 15.—The decision of the Bering Sea tribunal of arbitration was handed down at 11:07 o'clock this morning. The five points of article 6 are decided against the United States. A close season is established, to begin May 1 and to continue until July 31. This close season shall be observed both in the North Pacific ocean and in Bering sea. A protected zone is established, extending for sixty miles around the islands. Pelagic sealing is allowed outside the zone in Bering sea from August 1. The use of firearms in sealing is prohibited. The American arbitrators have expressed their satisfaction with the text of the decision.

Baron de Courcel, after the decision was rendered, thanked the arbitrators for the close and intelligent attention they had brought to bear upon the case. Lord Hannen and Senator Morgan, in replying to the president of the tribunal, acknowledged his courtesy and hospitality. The American arbitrators believe that the regulations decided upon by the tribunal mean practically the end of pelagic sealing and that they are better terms than were heretofore offered the United States by Great Britain as a settlement of the questions involved.

WHAT HAS BEEN DECIDED.
United States' Claim of Exclusive Jurisdiction Denied.

WASHINGTON, Aug. 15.—The secretary of state has received cable advice from Paris which in general terms confirm the United Press dispatch that the decision of the arbitration tribunal on all points involving exclusive jurisdiction over Bering sea has been rendered against the United States. That is to say, the tribunal has decided:

1. That Russia did not assert and exercise exclusive jurisdiction in Bering sea and in the seal fisheries therein, prior to the cession of Alaska to the United States.

2. That consequently Great Britain never conceded any such rights to Russia.

3. That Bering sea was not included in the phrase Pacific ocean as used in the treaty of 1825 between Great Britain and Russia.

4. That consequently no exclusive rights of jurisdiction over Bering sea and over the seal fisheries therein passed to the United States with Alaska under the treaty of 1867.

The inference is that it is under the last of the five points submitted to arbitration by article VI of the treaty that the concessions as to a close season, a sixty-mile protected zone and the prohibition of the use of firearms, apply. This fifth point was the one on which the greatest stress was laid. Argument by the United States counsel. It raised the question whether the United States had any right of protection or property in the fur seals frequenting the islands of Bering sea outside the three-mile limit.

The preliminary abstract of the decision received is regarded here as implying that the tribunal, to a certain extent has conceded this right. Only in future will seal life be protected by virtue of an international agreement entered into under the award of arbitration, and not solely by authority of a United States statute. The full text of the award is anxiously awaited.

It, as the brief cable dispatches indicate, all five points of article VI are decided against the United States; the regulations adopted by the tribunal, it is presumed, are in accordance with the seventh article of the treaty, which says:

"If the determination of the foregoing questions as to the exclusive jurisdiction of the United States shall leave the subject in such position that the concurrence of Great Britain is necessary to the establishment of regulations for the proper protection and preservation of the fur seal or of habitually resorting to the Bering sea, the arbitrators shall then determine what concurrent regulations outside the jurisdictional limits of the respective governments are necessary, and over what waters such regulations shall extend and to aid them in that determination the report of a joint commission to be appointed by the respective governments shall be laid before them with such other evidence as either government may submit."

When the case of the British government was filed, all evidence on the question of property right was omitted and the right was claimed to insert this evidence in the counter case after having had the advantage of perusing the testimony offered by the United States. To this J. W. Foster, then secretary of state, made a most vigorous protest. September, saying that the president had observed this fact with "surprise and extreme regret," and that the course pursued by Great Britain would be "injurious to the United States government in respect to that branch of the hearing which refers to the regulations which the tribunal is authorized to prescribe in a 'specified contingency.'"

"Especially," adds Mr. Foster in a

letter to Mr. Herbert, British charge d'affaires, dated Sept. 27, 1892, "would such a method of trial prove injurious to the United States in respect to that branch of the hearing that refers to the regulations which the tribunal is authorized to prescribe in its discretion for the preservation of the seal herd from extinction, if in the course of the consideration of the case they should reach the conclusion that the United States government cannot demand such protection as a right."

The dispute upon this point grew so warm that at one time the abandonment of the arbitration was endangered. Eventually the point was settled by a mutual agreement to extend the time for taking testimony on both sides. It thus appears that even before the meeting of the court of arbitration, the possibility of its decision resulting in the establishment of mutual regulations for the protection of seal life was a topic of active discussion between the two governments.

SENATOR VOORHEES' MEASURE.
The Text of the Bill to Increase National Bank Note Circulation.

WASHINGTON, Aug. 15.—The national bank note bill introduced in the senate yesterday by Senator Voorhees reads as follows:

"Be it enacted, etc., That upon any deposit already or hereafter made of any United States bonds, bearing interest in the manner required by law, any national banking association, which has made or shall hereafter make the same, shall be entitled to receive from the comptroller of the currency, circulating notes of different denominations in blank registered and countersigned as provided by law, and put into circulation in the amount of such notes issued, the par value of the bonds deposited; provided, that at no time shall the total amount of such notes issued to any such association exceed the amount at such time actually paid in as its capital stock."

Accompanying this was the following letter from Secretary Carlisle:

"Treasury department, office of the secretary, Washington, D. C., Aug. 15, 1893. Hon. D. W. Voorhees: My dear sir: Your favor of Aug. 10, inclosing the form of a bill to provide for the issuing of circulating notes to national banks and asking the views of the secretary as to the advisability of its passage, is received. The enactment of such a law as proposed would enable the national bank to issue and put into circulation at once on bonds already deposited with the treasurer of the United States about \$10,000,000 in currency in addition to the amount now authorized; and this, in my opinion, would afford a very considerable measure of relief to the country by increasing the circulation of the bill. Respectfully yours, J. G. Carlisle, secretary."

NOVEL ATTRACTIONS OFFERED.
The World's Fair Management Drawing on the Midway Plaisance.

WORLD'S FAIR GROUNDS, CHICAGO, Aug. 15.—The new policy of drawing on the heterogeneous population of the Midway Plaisance and the ethnological village of Indians for special attractions seems to have taken the popular fancy. The willingness of the Midway concessionaires to co-operate with the exposition managers, while prompted by motives of self interest, shows that there is no war between the exposition powers and the Midway people on the question of Sunday closing. Although the directors are sincere in their efforts to close the Midway, they realize that the percentage of receipts from the Midway on Sunday make up for the cost of keeping the fair open on Sunday.

The special attraction managers have arranged some kind of a program for every day this week. An international ball and banquet has been arranged for tomorrow night on a big scale. It is to be given in the natatorium and Model Vienna cafe on the Plaisance. The participants will include every nationality and will be within the gates of the White City.

It promises to be like a grand masquerade ball without the masquerade. It will certainly be the first event of such a character ever held. Over 700 foreigners of both sexes and all colors in their native dress will be the ball room floor. The director general has been invited to lead the grand march with an American woman, and a deputation will wait on him to urge acceptance. The women from the beauty show and the American Indians will be in the front of the motley marching column.

ALL THE GUESTS ESCAPED.
But They Lost Everything But What They Carried.

OAKLAND, Cal., Aug. 15.—At 9:30 last evening a fire was discovered in the roof of the Tubbs hotel in East Oakland and in less than an hour the structure was totally destroyed. The fire was past control before the engines reached it. The origin of the fire is unknown. There were within the hotel, all of whom escaped safely, but with only such property as could be easily carried in their hands. The building was a four-story frame and one of the oldest landmarks. The loss will reach \$100,000.

A NOVEL POINT RAISED.
Governor Tillman Was to Use "Palmetto" As a Liquor Trade Mark.

WASHINGTON, Aug. 15.—Governor Ben Tillman, of South Carolina, is seeking governmental authority to use the sobriquet of the state "palmetto" as a trade mark for his dispensary liquors. Several weeks ago the Washington attorneys for the state made application for the registration of the brand and the right to use the emblem upon flasks and labels. Commissioner Seymour has the novel case under consideration and his decision will establish an interesting precedent.

Shot By Accident.

STRIKE AT THE FAIR

The "Gospel Chariot" Concession is Paralyzed by the Striking of Four Hundred College Boys.

Notice of a Reduction of Twenty Per Cent in the Chair Pushers' Wages Caused it.

Shrewd Scheme of the Boys by Which They Pushed Visitors and Got the Receipts.

WORLD'S FAIR GROUNDS, CHICAGO, Aug. 15.—Four hundred college boys who are known as chair pushers are on a strike and the "gospel chariot" concession is paralyzed for the present. The employees of the company who wheel visitors through the grounds and buildings refused to go to work this morning, because Superintendent Adams had posted a notice in all the booths last night that on and after today there would be a reduction of 25 per cent in the wages of the chair pushers. They have been paid only \$1 a day for twelve to fifteen hours work, with 10 per cent of their receipts, and out of this they have been compelled to pay for their board and \$20 for a uniform.

The only reason assigned by their employers for reducing the pay of the young men is the bad condition of their business, but there does not seem to be any justification for the reduction on that score, judging by the increased attendance now. The reduction does not extend to the superintendents, and they sympathize with the boys. The decision to strike was arrived at by a big majority of the boys at a meeting held last night outside the grounds.

When the gates opened this morning, one of the unemployed strikers was stationed at every pass gate to inform those who were not at the meeting and not one of the chair pushers went to work today. Superintendent Adams made no attempt to fill the places of the strikers. Many of them went outside the grounds, took off their uniforms and returned in their college clothes to make some money for themselves. They did this by offering to push visitors who needed such assistance for 35 cents an hour.

They pocketed the whole of this amount and the company got its 40 cents for the use of the chair without a guide. The total cost for the visitor was the same as if the boys were not on a strike, but the boys got the extra 35 cents instead of the company. The booth superintendents were powerless to stop this shrewd scheme of the boys.

CANNOT PAY WAGES.

Economic Society Will Probably Soon Entirely Disappear.

PITTSBURGH, Pa., Aug. 15.—The affairs of the Economites have reached a crisis, and it seems probable that only a short time will elapse before the famous old society will have passed entirely away. During services Sunday Trustee Duss notified the employees that the society would be unable to pay wages any more to its servants, but if they wished to remain they might work for a month longer for the board of the society. The society has been unable to realize on its real estate, owing to the present financial straits. The decision will affect over 300 men and it was a very serious matter for many families.

HELD UP THE PASSENGERS.

Train Robbers Secured a Small Amount of Cash.

SHREVEPORT, La., Aug. 15.—The south-bound passenger on the New Orleans & Pacific railroad was held up by masked men three miles south of Mansfield at 8 o'clock last night. The men boarded the train at Mansfield Junction, and when it had pulled out some distance they began holding up the passengers. Only a small amount of cash was secured. No attempt was made to rob the express or mail cars. It is thought the bandits were frightened off before finishing the job. They jumped from the train and escaped in the darkness.

A STATE OF SIEGE.

It is Likely to be Proclaimed Throughout Argentina.

LONDON, Aug. 15.—A dispatch received in this city via Paris says that Gen. Olivera has been appointed governor of the province of Buenos Ayres in place of Gen. Costa, who was recently deposed by the Radical insurgents and who fled to Montevideo to escape his enemies.

The dispatch adds that it is stated in Buenos Ayres that a state of siege will shortly be proclaimed throughout the republic. The troubles in the city of La Plata have not been ended. Combats between armed men are of frequent occurrence in the streets.

Accepted the Honor.

MANSFIELD, O., Aug. 15.—James P. Seward, of this city, who last week at the Democratic state convention declined the chairmanship of the state committee, has re-considered the matter. A number of prominent Democrats with Mr. Seward held a conference this morning. This morning Mr. Seward announced that he would accept the honor.

MAY COMMENCE WORK

If the Water Bonds Voted Two Years Ago Are Still Legal, Some May Be Sold.

In This Event the Construction of a City Water Plant Will Be Commenced at Once.

Nominations of John D. Campbell and Robert Smollett Turned Down—Loan Notes to Be Paid.

Last night's session of the council was the shortest regular meeting yet presented by the present administration for the inspection of the public and the reporters. By 8:30 p. m. Alderman Cox headed off Alderman Dingwall's customary motion to adjourn, and adjourn they all did. When the meeting opened, about an hour before, all the city fathers were in their places except Alderman Helm, Dumbly and Wilson. They came in later. The meeting was characterized by harmony in banks, where long no long, windy discussions and, with one or two trifling exceptions, no snapping at one another by the members. Most of the petitions and communications were devoid of general interest and it was not until the resolutions were introduced that anything of importance came up.

Alderman Howard introduced a resolution calling upon the city attorney to prepare a written opinion as to the validity of the water bonds voted at the special election held August 1, 1901. The resolution also called upon the city attorney to present an opinion as to whether these bonds could legally be issued now, after so long a lapse of time. That election authorized the issue of bonds to the sum of \$800,000. If the bonds are legal, the city is authorized to sell and the construction of a city water plant at once commenced. Mr. Greene will present his report at the next meeting.

The payment of temporary loan notes to the amount of \$17,000, held by the New York Security & Trust company has also been arranged for last evening. The city treasurer was given authority to pay the interest on the present loan notes and to draw a city order for \$7,500, due November 1, next, with interest at 6 percent payable to that company. These new notes are to secure the debt and as fast as they are sold, the city will be credited with much on the order.

The picture committee on public places and grounds in its work, again last night. For a few weeks that committee has made no reports. Alderman Cox has been putting a new foundation under his building. "Room Corn Alley and affairs of state, as it were, have been allowed to languish. Last night, however, he was on hand and the first report of his committee. Robert Smollett a knock-out blow. Smollett, some weeks ago, was promoted from postman to sergeant. Some of the committee objected to his past record and before any council action on his confirmation was taken, he made a slip and was disqualified. The committee then turned a good many against the confirmation. The council adopted the report by a unanimous vote.

When it came to voting on the committee's recommendation that John D. Campbell be not confirmed as a member of the board of public works to succeed Nils Nelson, things were not so unanimous. The ballot showing a vote of 10 to 5 against confirmation. Alderman Helm, Ole Dumbly, Thomas and Wilson voting against.

The assignment of funds due from the city to its bondholders, by the West Duluth Industrial and Development company was approved by the council. Previously named, that those funds go to pay labor bills, judgments against the city in favor of Sarah Hartford, \$125; Ellen R. Mendall, \$100, and Mrs. Hart and Heineke, \$50, were ordered paid.

Alderman Hugo, introducing a resolution for the removal of telephones and electric wires when in the way of moving buildings was passed. Alderman Hugo introduced a resolution directing the city clerk to omit the usual legal phraseology with which are commenced the reports of committees, communications and petitions in the published official proceedings and to use the spare space thus gained by giving an abstract of the subject matter of the documents named. Referred to the city attorney.

Emil Schmidt was allowed \$350 with which to meet the expenses in legal services in determining the legal order of the city printing. The fire commissioners were instructed to find out the cost of a lot on Duluth Heights for an engine house and the probable cost of such a building and its equipment.

The committee on ordinances and judiciary was directed to draft an ordinance providing for the official weighing of coal. A lot of estimates made by the board of public works on street improvements were allowed and ordered paid.

AMUSEMENTS.

"O'Dowd's Neighbors."

The farce comedy, "O'Dowd's Neighbors," which will be seen at the Temple this evening, is justly spoken of as an opera-house comedy, the music which that smart bit of a man, Mark Murphy, has put in the play justifying its title. In the course of the excitement the following are among the selections: An opening chorus by the O'Dowd quartet, Messrs. Rogers, Reynolds, Eberhart and Riggs, which is received with great enthusiasm nightly, the voices being spoken of by New York papers as fairly rivaling the celebrated Clippert quartet. Probably the song, "Papa Wouldn't Buy Me a Watermelon," by Mark Murphy, makes the hit of the performance. Judging from the old saying, "make extremes meet," it strikes one as being peculiar that the celebrated selection from "Lucia di Lammermoore" as sung by the sextet should follow the comedy selection, "On the Bowery," "After the Ball," "The Cat Came Back," etc. Still, this is the nature of things with "O'Dowd's Neighbors."

Too Much for Him.

Saturday, Uncle Green, who ought to possess a heart humane, inveighed Uncle Jimmy Smith, Duluth's assessor, into a watermelon eating contest. As a result Mr. Smith came near putting on wings of immortality and having his measure taken for the latest style robes and crown. He gave the undertaker the razor-dazzle however, and is fast getting back to his normal condition.

The Municipal Court.

Yesterday afternoon Judge Powell fined Chas. Summers \$5, and costs for selling cigarettes to a minor. Complaint was made August 1, by Henry Haskins. This morning appeal bond in the case of the City vs. Max Bloom, charged with selling a second-hand store without a license was filed and approved. Several drunks and vagrants were also disposed of.

Complaining of Cows.

Residents of West First street are complaining that cows are allowed the freedom of the street greatly to the damage of young trees which have been planted along the sidewalks. One irate householder wrote to the city fathers, complaining that comes within striking distance and stand the consequences.

Mr. Ferguson's Glee.

J. A. Ferguson, manager of the Duluth branch of the Pioneer Fuel company is not only a mighty happy man today, but he is the father of a bouncing girl, baby. The young lady appeared this morning at the Ferguson residence, 2310 East First street and all concerned are doing as well as possible. Ferguson is not only throwing his hat in the ring for himself on the back, but he is setting up some great big cigars that draw mighty easy.

The Third Time.

About 3:30 this morning the fire department was called down to the Ashland restaurant on Lake avenue. The blaze originated in a sofa and did no great amount of damage. This is the third time a fire has started in that establishment and each time the circumstances have been more or less peculiar. The authorities will soon be compelled to believe that the place is a neighborhood incendiary.

Was Buried Here.

The body of Peter McTeague, the young man who was killed by the car last week, was buried at the county farm this afternoon. Peter McTeague, father of the young man, was the body sent home to Bradford, Penn., but he is too poor to stand the expense and no one here felt like doing so.

Was Mortally Wounded.

MORA, Minn., Aug. 15.—L. O. Larson, of Lewis Lake, town of Brunswick, was shot and mortally wounded Sunday night. At about dark a man came into his yard and shot at Larson three times, one shot taking effect below the shoulder blade. The assassin is supposed to be a brother-in-law. The sheriff has gone in search of Otto.

The Violent Commotion.

In the storm of howls, pines, and a violent purgative and its consequent drenching action, never before, because it is impossible they should be, followed by permanent good effects. No specific for whose relief it is used, can do good, like pills, calomel, polyphosphates and salts, and vegetable pills, which are of no benefit. A reliable and effective substitute for them is Hostetter's Stomach Bitters, which effects a change both natural and thorough in the bowels when they are constipated. A sufficient restorative secretion of bile, the liver and sound digestion are also promoted by its use. Malaria in all its forms, rheumatism and kidney trouble are relieved by this fine reformer of disordered conditions of the system. A witness has found three times a day is about the dose.

Announcement.

The firm of Kennedy & Eckstein wish to announce that Mr. Levi Forest, so well and favorably known in the city from his long connection with the county auditor's office has taken a partnership in their fire insurance, real estate and mortgage loan business and will hereafter be at home to his friends at 123 Chamber of Commerce. They will as in the past continue to do a general local real estate business, buying, selling, leasing property, acting as agents, collecting rents and taking full charge of estates for non-residents, pay taxes, etc. They also negotiate loans on first mortgages. Particular attention is given to the closing of entire lines of insurance including fire, plate glass and life insurance.

FOUR MILLION'S OF DEBTS.

The Unfortunates in the Pork Cattle Collapse Are Settling.

CHICAGO, Aug. 15.—N. K. Fairbank yesterday conveyed to Henry Botsford his property at the northeast corner of Washburn avenue and Randolph street, the consideration being stated as \$25,000. He also transferred to Hately Bros. the property on Washburn avenue west, between Eldridge court and Twelfth street, the consideration being stated as \$10,000. Messrs. Hately & Botsford take title as trustees for Mr. Fairbank's creditors in settlement of claims arising from the recent collapse in the provision market. Mr. Fairbank, who lost \$300,000 in the recent failure, will settle in full. John Cuddey will pay his debts in full practically. He has turned over a vast amount of real estate, located on the South Side in settlement of the claims of board of trade creditors. These aggregate \$750,000 and the real estate worth more than cover the amount, leaving a balance to apply in payment of outside claims, making up the aggregate of \$1,000,000.

Of the eleven failures caused by this collapse, all but four firms have made records of settlement, and the majority have already settled with from 50 to 90 percent of their creditors, and by another week it is expected that all the businesses will have been liquidated. The combined liabilities of the eleven unfortunates aggregate \$1,325,000.

COOLLY BLEED TO DEATH.

Was Terribly Injured by the Accidental Discharge of a Gun.

BROWN'S VALLEY, Minn., Aug. 15.—Sunday afternoon, about two miles from Sisseton agency, occurred the accidental shooting of E. M. Conley, licensed post rider at that place and highly respected. He, in company with J. Brown, was returning from a hunt and when within about a mile of the place, the Spencer repeating shot gun Mr. Conley used was accidentally discharged, the whole load passing through his right arm just below the shoulder. The stevedore the blood as best he could but Conley died to death before they reached home.

Trotting Stable Burned.

LEXINGTON, Ky., Aug. 15.—The trotting stable of the well known horseman John D. Creighton was burned to the ground at Lexington yesterday. Two well bred fillies perished in the flames and a third was burned nearly to death, jumentum 2:14, and John Turner, together with a score of others, were in the building, but were saved.

Killed in Riots.

BOMBAY, Aug. 15.—During the recent riots in Bombay, 1500 Mahomedans and Hindus were killed. The number of persons killed is not known, but it is certain that the deaths are in excess of the number first supposed. Many of the injured in the hospital will probably die.

CHAMBER OF COMMERCE.

Col. Gridley's Bimetallism Resolution Voted Down—Other Matters Considered.

The chamber of commerce directors met this morning. The Gridley bimetallism resolution was taken up and was voted down. L. J. Moss, secretary of the Superior chamber of commerce, wrote asking for a conference in reference to inviting the foreign commissioners to the World's fair to visit Duluth.

Secretary Thompson was instructed to find out from James J. Hill whether it can be arranged. They are now touring over the Great Northern road.

A letter written to Judge Ensign by Thomas Sharpe was referred to the chamber. This suggested the idea of building a line of road from Pine City through New Ulm to Heron Lake; a second line from Heron Lake to Yankton, S. D., with a branch to Sioux Falls; and a third from Heron Lake to Omaha with a branch to Sioux City. Mr. Sharpe thinks the St. Paul & Duluth road ought to do it and he would be willing to have Duluth bond itself \$500,000 to get it built. Referred to the secretary.

Secretary Thompson was authorized to communicate with people who attended the former reciprocity convention and find out whether the dates in October selected meet with their favor.

FORCE, IF NECESSARY

The Trouble Between the Foreign Commis-
sioners and the Administrative Council
is Becoming Critical.

Commissioners Have Been Threatening to
Cover Foreign Exhibits if Not Al-
lowed to Sell Them.

The Threat Had no Effect on the Council
Which May Use Some Physical
Power.

WORLD'S FAIR GROUNDS, CHICAGO, Aug. 16.—The foreign commissioners at their meeting next Friday will have before them the ultimatum of the council of administration regarding the conditions under which the sale of duplicate exhibits in the departmental buildings of the fair will be allowed. When the foreign exhibitors have paid into the treasury of the exposition 10 per cent of the invoice price of their displays, they will get a permit for the authorities to sell duplicates for immediate delivery.

The commissioners have been holding a mild threat over the head of the administration council that if the exhibits from their countries were not allowed to sell what they pleased in their respective sections, covers would be laid over the foreign exhibits. But this threat has had no weight with the council, which will forward today to the foreign representatives the terms decided upon as a final divergence.

HE SHOT A BRAKEMAN.
A Drunken Passenger Used a Revolver With
Fatal Results.

UNIONTOWNS, Pa., Aug. 16.—Last evening James Watt, a son of Thomas Watt, a wealthy coal and coke dealer, shot and fatally wounded William Hartman, a brakeman of the train on which Watt was a passenger en route to Dunbar, on the Baltimore and Ohio road.

W. H. Cotton, a justice of the peace, was shot through the hand and leg while on duty as a peace officer. Watt was slightly injured by the influence of liquor and refused to give up his ticket. During the struggle which ensued, Watt drew his revolver and fired with the above result. Watt was taken to the Uniontown jail.

ONE THIEF CAPTURED.
St. Paul Policemen Are Running Down the
Bank Robbers.

ST. PAUL, Aug. 16.—As the result of a microscopic examination of the city one of the thieves who robbed the messenger of the Merchants' National bank of a bag containing \$5000 in gold in the corridor of the First National bank Monday morning was arrested. In La Plata, the capital of the province of Buenos Ayres, war has practically broken out again. There was hard fighting Monday night.

There is great excitement in Corrientes. The rebel troops have been attacked by the government forces. All yesterday morning at 3 o'clock on the bridge across the Red river in this city. Eight freight cars were demolished or thrown into the river, and the passenger engine is in the river partially covered with water. No one was injured except the passenger engineer, and he not severely. The passenger engine is a complete wreck.

THE REVOLT IN ARGENTINE.
Buenos Ayres Under Martial Law and the
Situation Bad.

NEW YORK, Aug. 16.—The Herald's cable dispatch from Valparaiso, Chile, via Galveston, says that: Buenos Ayres, Argentina, is under martial law. The president is being bitterly denounced by his opponents. The situation is extremely bad. In La Plata, the capital of the province of Buenos Ayres, war has practically broken out again. TO INVEIGLE YOUNG WOMEN.

A Scheme in Australia That Has a Suspicious
Look.

WASHINGTON, Aug. 16.—The treasury department is in receipt of information that a scheme is on foot in Australia to inveigle young women from that country to the United States under false pretenses. Advertisements have been put into the country papers, stating that there is a great demand in Chicago for waitresses who command very high wages on account of the crowds visiting the World's fair.

These waitresses are wanted, according to the representation made to work in the fair grounds. The inducements held out include transportation to America and return to Australia and the schemers secure themselves by having each woman sign a contract to repay the expense incurred in the travel out of her wages, which, it is stated, will not be less than \$100 a month. Each applicant for position is required to forward a full length photograph of herself, showing her figure, that the projectors of this scheme may judge whether she is physically capable of withstanding the long journey.

THE MATTER IS NOW IN THE HANDS OF THE AUSTRALIAN AUTHORITIES, WHO EXPRESSED DOUBTS AS TO THE HONESTY OF THE PURPOSE OF THE SCHEMERS. COL. STUMP, OF THE IMMIGRATION BUREAU, IS ALSO ON THE OUTLOOK FOR ANY WOMEN WHO COME FROM AUSTRALIA UNDER CONTRACT. IF THEY LAND HERE IT WILL BE AT SAN FRANCISCO. UNITED STATES OFFICERS HAVE BEEN NOTIFIED TO BE ON THE ALERT.

CANADA GETS THE SHELL.
The Bering Sea Decision Not Pleasing to the
Canadians.

BOSTON, Aug. 16.—The Herald's Ottawa, Ont., special says: Hon. Mackenzie Bowell, acting premier, has received the following cable from the premier, Sir John Thompson: "Bering sea arbitration concluded and award delivered at noon. All questions of right decided in favor of Britain. Future sealing prohibited in May, June and July and firearms forbidden in Bering sea. Tupper and I sail on Pacific line Thursday."

Mr. Bowell said that he had no comment to make until the full text of the award was received. "Sir John Thompson does not mention any stipulations about a sixty-mile protected zone as the press dispatches do and that is an excellent reason to withhold comment. At the same time I have no reason to doubt the correctness of the press report."

Mr. Bowell's reticence is emulated by the other members of the cabinet, but there is reason to believe that the outline of the award does not give much satisfaction in official circles here. The feeling seems to be that Great Britain has cracked a nut, of which the United States gets the kernel and Canada the shell.

THE DEBATE RESUMED

The Discussion of the Wilson Bill to Repeal
the Sherman Law Was Continued
Today.

Mr. McCamp, a Republican Member From
Massachusetts, Spoke in Favor of
Unconditional Repeal.

The Speaker Has Difficulty in Making Up
the List of Silver or Anti-Silver
Orators.

WASHINGTON, Aug. 16.—After adopting a resolution calling on the secretary of the treasury for information respecting silver purchases, the debate on the Wilson bill was resumed, Mr. McCamp (Republican of Massachusetts) speaking for the bill.

Mr. McCamp was followed by Mr. Coombs, of New York. While speaking for the repeal of the purchasing clause of the Sherman act he referred to notes and thereby broke the usual flow of his eloquence. Mr. Bryan (Democrat) followed Mr. Coombs and attacked the president's message in vigorous terms. The recommendations of the president meant the burial of silver with no promise of resurrection. They were an argument for single gold standard. They led to gold monometallism over whose door was written "Abandon hope all ye who enter here." The advocate of silver stood on solid ground and denounced this cry that a gold dollar was the only solid dollar. They denounced the gold dollar as the most dishonest dollar ever attempted to be forced upon the people.

The speaker of the house has an arduous task in making up the list of silver or anti-silver orators, and when the sun goes down in the evening he does not know precisely who will make the addresses on the following day. This trouble grows out of the fact that the knowing ones, or those who regard themselves as the knowing representatives, all desire to speak during the last week of the debate.

They do not desire to be speedily past the half mile post, but are anxious to show themselves before the grand stand of popular opinion at the cabinet, but there is reason to believe that the outline of the award does not give much satisfaction in official circles here. The feeling seems to be that Great Britain has cracked a nut, of which the United States gets the kernel and Canada the shell.

THE SENATE.
WASHINGTON, Aug. 16.—The morning hour in the senate after the introduction of bills was largely occupied by a discussion as to the overloading of government buildings in Washington with public books and documents. Mr. Vest proposing a remedy by the passage of a bill appropriating \$500,000 for a building to be known as the "hall of records." The discussion is still in progress.

A GREAT NORTHERN WRECK.
Collision of a Passenger Train With a Freight
at Fergus Falls.

FERGUS FALLS, Minn., Aug. 16.—No. 3, the westbound passenger train on the Great Northern, collided with a freight train yesterday morning at 3 o'clock on the bridge across the Red river in this city. Eight freight cars were demolished or thrown into the river, and the passenger engine is in the river partially covered with water. No one was injured except the passenger engineer, and he not severely. The passenger engine is a complete wreck.

The freight, which was westbound, had ninety-five empty cars. The side track is not long enough to hold it so it pulled part way out on the main track, intending to back as soon as the passenger pulled up so that it could. The freight was backing when the passenger came ahead. The heavy engine of the passenger struck the empties at an angle and toppled them over as a plow turns a furrow.

When the engine reached the bridge the bridge gave way and let the engine into the river. The fireman jumped and was not injured, but the engineer staid with his engine. His escape was miraculous. The passengers were not even shaken up.

The responsibility is not fixed yet. Damage, \$20,000. The westbound passenger was delayed. James Healey, passenger engineer, resides in St. Paul.

A DESTRUCTIVE FIRE.
CINCINNATI, Aug. 16.—About 11 o'clock last night fire broke out in the dwelling of Wagoner, the druggist, at Stewart, O., a small town twenty miles west of Parkersburg, W. Va. At midnight Wagoner's house and drug store, a cigar factory, a residence, Odd Fellows hall and several buildings had been consumed. No estimate of the loss can be given.

TO CUT DOWN EXPENSES.
ST. LOUIS, Mo., Aug. 16.—General Manager J. J. Frey, of the Santa Fe road; General Manager C. M. Hays, of the Washash; and General Manager Doddridge, of the Missouri Pacific, left for Chicago last night. They will attend the meeting of the general managers of the different Western roads to be held there tomorrow. The principal question to be discussed is the reduction of expenses.

UNION PACIFIC EARNINGS.
BOSTON, Aug. 16.—The Union Pacific statement for June, whole system, shows gross earnings of \$3,942,827; decrease, \$575,725; net, \$1,085,720; decrease, \$578,497. For six months: Gross \$19,103,610; decrease, \$784,463; net \$5,517,324; decrease, \$766,464.

THE STATE ELEVATOR CASE.
ST. PAUL, Aug. 16.—[Special to The Herald.]—By consent of both parties the state elevator case has been postponed until September 13. The commission may let the contract if they wish, but will probably do nothing.

DROWNED IN THE BAY

J. Morrison, Employed on a Williams,
Daugherty & Upham Dredge, Fell Off
a Scow This Morning.

He Swam for a While But Sank to the Bot-
tom Before a Tug Reached
Him.

A Young Man Who Has Been Using the
Hartman General Electric Company's
Name Too Freely.

J. Morrison, aged 25 or 27 years, an
employee on one of Williams, Daugherty
& Upham's dredges, was drowned in the
bay about 10 o'clock this morning.

The dredge was in tow of the tug Wel-
come. Morrison was raising one of the
pockets or doors, which are used to let
out the mud and water at the bottom of
the scow. He was jumping on the bar to
give his full weight to the movement.

The bar slipped out of the socket and
Morrison went overboard backwards.

The accident happened just abreast of
elevator H. Almost as soon as Morri-
son struck the water he was seen by his
comrades. It was some minutes, how-
ever, before the tug could get away from
her clumsy consort and go to his assist-
ance. The poor fellow kept up and was
swimming bravely until just before the
tug reached him when he sank and did
not again rise to the surface.

Williams, Daugherty & Upham as
soon as they learned of the drowning
sent the tug Williams to the scene
equipped for dragging. Up to 3 o'clock
this afternoon the body had not been re-
covered. As there is considerable cur-
rent and the water is quite deep it may
never be recovered, but no effort will be
spared.

Morrison had worked for the dredge
company about a month. His employers
know very little about him, but think he
is a single man and has been in Duluth
only this summer.

SOME MORE FORGERIES.

A Young Man Uses the Hartman General
Electric Company's Name.

Forgeries are becoming exceedingly
numerous in Duluth now and merchants
are, with reason, becoming very cautious
about cashing checks. They do not all
seem to come from the same parties by
any means, either. The latest reported
to the police department seem to have
emanated from the pen of Arthur W.
Hubbs, a young man about 18 or 20
years of age. He is not much of a pen-
man so far as style and beauty are con-
cerned but seems to handle his pen with
effectiveness if nothing else.

On Saturday it was reported to the po-
lice that a check for \$7.50 had been re-
ceived at McClure's barber shop on
Lake avenue from young Hubbs. It was
drawn on the American Exchange bank
and was signed by the Hartman General
Electric company. Hubbs had been
given \$1 cash for it. Shortly afterward
another one was reported by
E. D. Hart. This was for \$5 and had
been given in payment for a lively rig.
The young man was lodged in jail at 10
o'clock Saturday night, but for some
reason not very clearly explained was
released.

Yesterday B. J. Cook reported at
police headquarters with a check for \$35
of the same character. He said Hubbs
saw worth of goods and gave him \$25
cash. Today another one turned up.
This was taken by Williamson & Men-
denhall and was for \$57. Hubbs secured
nearly \$50 in cash on this.

When the police began to look for the
young man yesterday he was gone and
has evidently made good time from Du-
luth. No trace of him is found and his
parents do not know where he is.

W. C. T. U. CONVENTION.
Parliamentary Drill a Feature of This Morn-
ing's Session.

The district W. C. T. U. convention is
still in progress today and some very
interesting and profitable exercises have
been presented. The papers have all
been good and the parliamentary drill,
participated in by Dr. Huntley and Rev.
M. Knox, was a decided feature of the
morning session. The convention will
close this evening with a lecture by Mrs.
Leannette, H. Knox of Walpole, N. D.

Mrs. Knox, while residing in the east,
acquired quite a reputation all over New
England as a lecturer, and there is no
doubt but that her effort this evening
will be well worth hearing by all inter-
ested in temperance matters.

Going to the Fair.
The steam yacht Nautilus sailed today
for Chicago with a jolly party of fifteen
to take in the World's fair. The roster
is as follows: B. F. Howard and family,
J. G. Howard and family, E. S. Upham
and family, Morris Fischbein and family,
Miss Birdie Ash, Jay Cooke Howard and
Dr. McLaughlin. The party will live on
board ship while at Chicago. Returning
the yacht will reach Duluth Sept. 4.

To Investigate Charges.
The board of fire commissioners will
hold a special meeting tomorrow to in-
vestigate charges preferred against fire-
man B. J. Madden for violation of the
fire department rules. There are two
charges against Madden, both for drunk-
ness and were preferred by the assistant
chief in the absence of chief Smith at the
time.

The Municipal Court.
James J. Summers answered this morn-
ing in police court to a charge of carry-
ing concealed weapons and another of
forcible entry and detained on complaint
of Hans B. Knudson. Both cases were set
for trial on Aug. 17 and bail fixed at \$25,
which amount was furnished in both
cases. Several vases and drinks were
disposed of in the usual manner.

DOINGS OF CONGRESS.

The Bill to Increase National Bank Circulation Likely to Meet Obstacles in the Senate.

A Repeal Bill Has Been Agreed Upon by the Finance Committee of the Senate.

Indications that ex-Speaker Reed Will Address the House for the Wilson Anti-Silver Bill.

WASHINGTON, Aug. 17.—The bill of the financial committee of the senate to issue currency in national banks to issue currency in par value of the bonds deposited by them in the treasury will be fairly launched on its voyage in the senate today, but is sure to experience very stormy weather that will retard it if it does not prevent its reaching port in safety. There are already two stormy capes in sight and it will take good management to get round them without damage. One of these obstacles is the amendment offered yesterday by Mr. Cockrell (Democrat of Missouri) directing the secretary of the treasury to redeem such of the outstanding percent bonds as may be offered and to pay for them at par and accrued interest, by a new issue of greenbacks. Mr. Cockrell calculates that if his amendment be incorporated in the bill, and if the bill becomes law more than twenty of the twenty-five million of these bonds will be presented and that thus an issue of more than \$20,000,000 in greenbacks will be put in circulation. It is understood that he has also in reserve several other propositions that will not be very pleasing to the national banks or their friends in the senate.

The new Democratic senator from Nebraska, is also prepared to attack the bill with an amendment for the suspension of interest on the bonds deposited by the national banks as a basis for the increased circulation. There are therefore lively times ahead of the bill, and all his resources to prevent its being swamped in the senate. When the discussion of the silver question was resumed this morning, the advocates of the free coinage of silver had talked four hours more of the twenty-two hours so far occupied in the discussion. The last week of the debate promises to be very interesting, and the attendance is likely to test the capacity of the galleries to their utmost. Already they are well filled, the usual number of visitors drawn by curiosity being increased by the ranks of the unemployed who find in the benches a comfortable place to spend their leisure hours.

There are indications that ex-Speaker Reed will accede to the repeal of the anti-silver Democratic and make a speech in favor of the repeal of the purchase clause of the Sherman law. Mr. Daniels (Republican of New York) opened today's debate in the house with a speech urging the unconditional repeal of the purchase clause of the Sherman act. Mr. Daniels was followed by Mr. Cooper, a Florida Democrat, who announced himself as opposed to every proposition made by the silver men and for unconditional repeal.

Mr. Goldzier (Democrat of Illinois) followed Mr. Cooper with a speech in favor of the repeal of the purchase clause of the Sherman law. The conclusion of his remarks the death of Representative Chipman was announced. The usual resolutions were adopted and the house adjourned until tomorrow.

After the ordinary routine morning business in the senate, the report on the Montana senatorial case was taken up and an argument was made by Mr. Pasco (Democrat) against the right of Mr. Mastie to his seat under the governor's appointment. The senate committee will probably report favorably an unconditional repeal bill tomorrow morning and ask the senate to fix a day for a vote, perhaps within a day or two after the vote in the house. The committee has agreed upon all but the phraseology of the bill, which will contain a declaration favorable to bimetallism.

Fire at Atlantic City. ATLANTIC CITY, N. J., Aug. 17.—Fire this morning destroyed the city hall, Grand Opera house and a portion of the train sheds of the Pennsylvania railroad. The loss is estimated at about \$75,000 with not over \$5000 insurance. The body of a man known as Jimmy the Sport is supposed to be in the opera house ruins.

Shot by Her Husband. VALLEJO, Cal., Aug. 17.—Mrs. J. P. Allen, wife of Capt. Allen, chief draughtsman of the construction department at Mare Island navy yards, was accidentally shot by her husband last night. The attending surgeon reports that the wound will be fatal.

He Stole Letters. ST. LOUIS, Aug. 17.—William J. Corrigan, a mail collector, was arrested today charged with stealing letters from the mail boxes on his route. For a number of weeks many letters mailed in his district failed to reach their destination. He has confessed.

Mrs. Kyle Dead. BALTIMORE, Aug. 17.—Mrs. Mary A. Kyle, widow of Judge Kyle, of Cincinnati, and sister of Commodore James F. Watkins, of San Francisco, died yesterday at Lutherville, a suburb, aged 70 years.

FOR BREACH OF PROMISE.

A Handsome Blonde Wants \$50,000 From a Wealthy Builder. NEW YORK, Aug. 17.—Papers have been served upon Richard Goodman Platt, a wealthy builder, in a suit for breach-of-promise of marriage brought by Mrs. Marie E. J. L. S. Willard, the divorced wife of James S. Willard, son of E. K. Willard, a Wall street broker. Mrs. Willard asks for \$50,000 damages. The complaint alleges that in October, 1901, Mr. Platt proposed marriage and was accepted. Afterward, relying on his protestations, she says, she went to live with him. Now she alleges he refuses to keep his promise. Mrs. Willard is a handsome blonde, 28 years of age, and had known Platt before she was divorced, when she and her husband were living in Chicago. Mrs. Willard denied last night that she had begun any suit, although the complaint has been served as stated. None of the other parties interested were in town.

LARGEST OF THE WEEK.

Today's Attendance at the World's Fair is Heavy.

WORLD'S FAIR GROUNDS, CHICAGO, Aug. 17.—Although there is no special attraction today outside of the exposition itself, nor any national celebration, there is every indication that the paid admissions will be the largest of the week. The reason for this is that nearly 12,000 people were added to the regular influx of visitors by fifteen special World's fair trains, which arrived in Chicago last night from Eastern cities. The excursionists were able to make the trip because of the low rates offered by the railroads.

Among the Eastern excursionists who came in last night and visited the New York state building today were seventy newsmen from the Empire state who are here as the guests of the New York city daily papers.

CONGRESSMAN CHIPMAN DEAD.

Died From Pneumonia After an Illness of Three Weeks.

DETROIT, Mich., Aug. 17.—John Logan Chipman, member of congress for the First district of Michigan, died at Harbortown, Mich., this morning, aged 65 years. He had been ill of pneumonia for three weeks past. He was serving his third term from his district and prior to going to congress had been judge of the superior court of Detroit for a number of years.

Reduction in Salaries.

INDIA, Mich., Aug. 17.—The employees as well as officials of the Detroit, Lansing & Northern railroad, in all departments have received official notice from General Manager Heald that dating from Aug. 15 there will be a reduction of salary in all departments. The reduction is given as the business depression, which has caused a serious reduction in the gross receipts of the company.

The Bombay Troubles.

BOMBAY, Aug. 17.—Although there has been no renewal of the rioting in this city today, confidence has not yet been fully restored. The shops are closed and every train leaving the city is filled with females carrying their personal effects who are returning to their native districts with a view to securing safety in the event of general trouble. The working people refuse to resume their occupations until after tomorrow, which is a Mohammedan prayer day.

Cholera at Antwerp.

WASHINGTON, Aug. 17.—Surgeon General Wyman received a cablegram from Antwerp today stating that since last advice six new cases of cholera had developed, five of which had proved fatal. Emigrants will now be isolated in selected hotels for five days and guarded by watchmen. The steamer Penland will be used as a floating hotel and medical assistance employed when necessary.

Three Buildings Burned.

SPRINGFIELD, Miss., Aug. 17.—Fire yesterday burned the general store building of H. F. Dirk together with the engine stock of goods. The postoffice building, the saloon of Bigot & Rhawartzrock and the jewelry store of H. O. Schleuder were also destroyed. Total loss about \$15,000.

Could Not Realize.

ALBANY, Mo., Aug. 17.—The Bank of Albany suspended yesterday owing to inability to realize on loans and securities. A statement gives assets at \$10,000 and liabilities at \$80,000.

Assets Are Sufficient.

TOPEKA, Kas., Aug. 17.—The National bank of Marion closed its doors yesterday. Liabilities are not known, but the assets are sufficient to cover everything.

ROBBERY OF A TRAIN.

An Express Train on the St. Louis & San Francisco Road Held Up Early This Morning.

Two Men Placed a Revolver at the Express Messenger's Head and He Opened a Safe.

Did Not Know the Combination of the Through Express Safe and Its Contents Escaped.

ST. LOUIS, Aug. 17.—The north-bound express train No. 4, in charge of Conductor Smith and Engineer Hall, on the St. Louis & San Francisco railroad, which reached here at 7 a. m., was held up and robbed by two men at a point about three miles west of St. James, Mo., at 3 o'clock this morning. The robbers are supposed to be tramps and boarded the front platform of the baggage car, when the train stopped at a water tank a few miles south of St. James. On account of the sultry night, the express messenger allowed the door of his car to remain open and the robbers had no difficulty in entering the car. They placed a revolver at the messenger's head and ordered him to open the safe. The through express safe was locked and the combination unknown to the messenger. After some argument he convinced them of the fact, and they pulled the bolt rope. As the train slackened speed, the robbers leaped from the platform and disappeared in the darkness. When the train reached Cuba, the station agent was notified and a posse was organized and started in pursuit of the men.

One of the robbers is described as about 5 feet, 8 inches in height, black whiskers and dark clothing. He was about 35 years of age. The other was a young man, smooth face and weighing about 170 pounds. The local officials are reticent about the value of the property secured and say it will amount to very little.

NOT A DOLLAR FOUND.

A Texas Bank President Charged With Embezzlement.

SAN ANGELO, Tex., Aug. 17.—W. L. Buchanan, president of the Sutton County bank, of Sonora, and Coke County bank, of Robert Lee, which failed last week, was arrested yesterday charged with embezzlement.

There is considerable sentiment against Buchanan, as it is claimed that deposits were accepted late Saturday night, Aug. 5, and the following Monday morning a notice was posted on the doors announcing their failure. Not a dollar was found in the bank vaults.

AN ILLICIT STILL FOUND.

It Was in the Cell of a Prisoner in a County Jail.

BIRMINGHAM, Ala., Aug. 17.—An illicit whisky still in full operation was found in the cell of Charles Wellborn, at the county jail yesterday. The still was hid under a table and im-

proved of a bucket in which were a piece of curried glass, pipe as a worm, three tin boxes as fermenters and a spittoon as a furnace. Molasses, apples and the like furnished the prisoner as food were used as materials for making the rum.

Blown to Atoms.

LEXINGTON, Mo., Aug. 17.—The boiler of the Wellington roller mills exploded yesterday afternoon and killed Engineer Richard Johnson, aged 35. The boiler was blown to atoms and Johnson was buried under an immense pile of coal. The boiler was thrown a distance of 100 yards up a steep hill.

Assets Are Sufficient.

CAUGHT IN CHICAGO

Billy Pinkerton Has Arrested the Supposed Principal in the \$5000 Bank Robbery at St. Paul.

It is Also Claimed He is an English Thief With a Big Continental Reputation.

Pinkerton Found Him in a Gambling House Where He Was Losing in a Reckless Way.

CHICAGO, Aug. 18.—George Harvey was arrested by Billy Pinkerton last night on the charge of being the principal in the \$5000 robbery in the First National bank, of St. Paul. Harvey refused to talk beyond claiming that he had never been in St. Paul. The Pinkerton man, as claim he is not only the man who grabbed off the \$5000, but is an English thief with a big continental reputation.

Harvey was detected in a gambling house where he had been losing money in a reckless manner without apparent minding it much. Pinkerton watched the game for a long time, and finally crossing over to where Harvey was playing bought a stack of white chips. The game and the conversation lasted for about half an hour when Pinkerton got up, cashed in his chips and in a few moments withdrew to the outside.

One of his operators was waiting for him at the door. As his chief came out, the man handed him a photograph. "I am almost certain that it is he, but he is minus the whiskers. Go up and take a look at him." The man went up and took the chair which Pinkerton himself had vacated and engaged in a rambling conversation with Harvey.

Fifteen minutes later the operator left and Pinkerton himself went up and made the arrest. The man was taken to central station and locked up, but not booked. Harvey refused to talk, beyond claiming that he had never been in St. Paul.

Believe He is the Man.

ST. PAUL, Aug. 18.—The St. Paul police are confident the man arrested at Chicago is the head of the gang which perpetrated the bank robbery here. Complete proofs of his identity will be sent to Chicago tonight and tomorrow a requisition for his extradition will be forwarded.

THE NEW YORK RIOTERS.

A Large Mob Gathered at the Police Court This Morning.

NEW YORK, Aug. 18.—The turbulence of the unemployed that devastated Wall-balla hall yesterday is more subdued this morning. The imprisoned members of yesterday's mob were to be arraigned this morning in Essex Market police court. Prior to the opening of the court and as early as 8 o'clock at least 500 persons gathered in Essex Market above Grand. They swarmed about the court and prison, and policemen were compelled to fight them back with clubs from the court doors.

The crowd constantly grew in numbers and its riotous demonstrations increased. Reserves called on and repulsed, so that twenty men were soon massed between the court doors and the head of the mob. Just across Essex street from the court and prison is old Essex market. The presence of the mob produced a minor reign of terror. The stall owners appeared to fear that the fury of a mob might at any moment break forth and wreck their miniature places of business and perhaps move off with their edible stock in trade.

About 8:30 martial law was heard approaching and a diversion was heard. The mob jumped at the conclusion that it was a procession of some of their fellows sufferers, who had secured a band and were parading. A grand rush was made for the approaching procession, but it proved to be a company of red-shirted volunteers for the football tournament at Coney Island. The mob was disappointed and struggled back.

Justice Voorhis opened court at 9 o'clock and imposed small fines upon the prisoners.

A SERIOUS APPEARANCE.

Were Deposits Received After the Bank Was Insolvent?

NEW YORK, Aug. 18.—The Times says: The failure of the Commercial bank in Brooklyn is beginning to assume a serious appearance. A question is to the criminal liability of President Keeney and the directors and officers of the bank has been raised by some of those who placed their money on deposit in the institution the day previous to the suspension.

The foundation for this grave charge against President Keeney and his associates is the allegation that deposits were received by the bank after the institution was known to be insolvent.

WEEKS LEFT COLUMBIA.

He and His Wife Suddenly Left the City of Panama.

NEW YORK, Aug. 18.—A Times special from Panama says that Francis Henry Weeks, the New York ascender, discovering that the United States of Colombia, had a treaty of extradition with the United States, the fugitive and his wife suddenly left that city in the latter part of July.

During his stay in Panama Weeks was restless, impatient and ill at ease. Both he and his wife avoided all publicity and social life. His present whereabouts are not known.

A Serious Blaze.

TEXARKANA, Ark., Aug. 18.—Fire started in Shecker's bakery on Broad street last night and destroyed the entire block. The total loss will reach \$10,000 with insurance about half that amount.

A Murderer Hanged.

QUINCY, Ill., Aug. 18.—W. G. Jamison was hanged here today. His neck was broken and he died in sixteen minutes from the time the drop was made.

He made no statement on the scaffold. Jamison murdered Charles N. Aaron on April 10, 1892.

FEARFUL OF RIOTING.

Troops Guarding Mosques and Stores in Bombay.

BOMBAY, Aug. 18.—This was a Mahomedan prayer day and there was a general expectation that further troubles would occur between the members of that sect and Hindoos. In the early part of the day symptoms began to be plainly manifested that the religious animosity would again lead to rioting and the authorities at once took steps to prevent an outbreak.

It was feared that the Hindoos would attack the great Juma Musjed mosque, and a detachment of artillery was placed in front of the building from which direction only an attack could be made with any hope of success. The cannon commanded the main approach to the mosque and the street could easily have been kept clear had events warranted firing.

It was not alone in this direction, however, that the authorities took measures to repress possible disorder. The other mosques resorted to by the Mahomedans were equally well guarded by troops and all the leading thoroughfares were patrolled by soldiers. The shopkeepers and others in the city were fearful of business, and the shops and markets were not opened until the troops appeared.

REPEAL BY THE SENATE

The Majority of Finance Committee Today Reported a Bill to Repeal the Sherman Law.

WASHINGTON, Aug. 18.—In the senate a motion to adjourn over until Monday was made on the Democratic side, resisted on the ground of the necessity of action on financial measures, and finally withdrawn on Mr. Voorhis announcing that he would ask the senate to proceed with the consideration of the national bank circulation bill.

He then reported from the finance committee a bill to suspend the purchase of silver bullion under the Sherman act, with a declaration in the bill that it is the policy of the United States to continue the use of both gold and silver as standard money and to coin both gold and silver into money of equal intrinsic and exchangeable value.

The full text of the bill is as follows, omitting the enacting clause:

"That so much of the act approved July 14, 1890, entitled 'An act directing the purchase of silver bullion and the issue of treasury notes thereon, and for other purposes,' as directs the secretary of the treasury to purchase from time to time for 37 1/2 per cent above market value of 4,500,000 ounces, or so much thereof as may be offered in each month at the market price thereof, not exceeding \$1 for 37 1/2 per cent above market value, and to issue in payment for such purchases treasury notes of the United States, be and the same is hereby repealed.

"And it is hereby declared to be the policy of the United States to continue the use of both gold and silver as standard money and to coin both gold and silver into money of equal intrinsic and exchangeable value. Such equity to be secured through international agreement or by such safeguards of legislation as will insure the maintenance of the parity in value of the coins of the two metals and the equal power of every dollar at all times in the markets, and in the payment of debts. And it is hereby further declared that the efforts of the government should be steadily directed to the establishment of such a safe system of bimetalism as will maintain at all times the equal power of every dollar coined or issued by the United States in the markets and in the payment of debts."

A substitute for the bill was reported from the minority of the committee (Messrs. Harris, Vance, Jones, Arkansas, Jones, Nevada, and Vestal) the number of grains of silver in United States coins at 464 to 466 grains of pure silver per dollar and proportionately in minor silver coins.

The bill and substitute were ordered printed and placed on the calendar and Mr. Voorhis gave notice that he would call them up next Tuesday. The senate then took up for consideration the bill to allow national banks to increase their circulation.

Mr. Allen (Republican, of Nebraska) argued in favor of his amendment to suspend the payment of interest on bonds on which the increased issue is based.

The House.

WASHINGTON, Aug. 18.—The silver debate opened promptly in the house this morning with a speech by Mr. Sibley (Democrat of Pennsylvania) in favor of bimetalism and the Johnson bond proposition.

At the conclusion of Mr. Sibley's speech, which was listened to with great attention, Mr. Catchings (Democrat of Mississippi) from the committee on rules, reported a resolution authorizing the appointment of the committees by the speaker. Several of the most important committees are increased in membership.

REPUBLICANS TO CONFER.

The National Committee Will Probably Meet in October.

NEW YORK, Aug. 18.—"I think," said Chairman Carter of the Republican national committee at the Imperial hotel last night, "that I will call a meeting of the committee in October—certainly not before October and possibly a little later."

"Why is this meeting to be held?" Mr. Carter was asked.

"Because," said he, "by that time it is fair to suppose it will be apparent what congress will do in the way of financial legislation and there may be matters which the committee would like to talk over."

The permanent headquarters of the committee may be established about that time, probably in Washington instead of New York city.

A Murderer Resisted.

QUINCY, Ill., Aug. 18.—W. G. Jamison was hanged here today. His neck was broken and he died in sixteen minutes from the time the drop was made.

He made no statement on the scaffold. Jamison murdered Charles N. Aaron on April 10, 1892.

THE VIGILANT VICTORIOUS.

BRENTON'S POINT, R. I., Aug. 18.—The race of the cup offenders yesterday for the Astor cup was won by the Vigilant.

The finish was: Vigilant, 3:37.40; Jubilee, 3:41.10; Colonial, 3:41.50. The Pilgrim did not finish.

THEY MAY BE UNITED

A Story That the Great Northern and the Northern Pacific Roads May be Consolidated.

It is Said a New Company Will be Formed With James J. Hill at Its Head.

Presidents Hill and Oakes Now Going Over Details Prior to Preparing a Plan of Operation.

NEW YORK, Aug. 18.—A special to the Press from St. Paul, Minn., says: The Press correspondent has just learned from inside sources that a movement is on foot to start a new company with James J. Hill at the head for the purpose of consolidating the Northern Pacific and the Great Northern railway systems, which include practically the whole Northwest.

It is rumored here that this connection will be urged on the ground of economy and that President Hill and President Oakes are at the present moment going over the details prior to preparing some plan of operation to be submitted to the stockholders. It is said here that when this plan is perfected, it will show that by close management great economies can be inaugurated in the management of the Northern Pacific, economies that will help the property out of at least some of its embarrassments.

This proposed combination has been kept a profound secret but the facts leaked out here in railroad circles.

BRINGING PRESSURE TO BEAR.

A General Move to Influence the Senators and Representatives.

BOSTON, Aug. 18.—A committee representing the business men of Boston and vicinity has sent a letter to the Boston chamber of commerce suggesting that that association should at once issue an urgent letter to each one of its members requesting them to immediately write or telegraph to all persons with whom they may have business or other relations in the West, South or Southwest, requesting them to correspond without delay with their senators and representatives in the United States congress, urging the importance of securing a vote against the repeal of the purchasing clause of the Sherman law immediately after congress assembles, and that any and all dilatory tactics or other methods of delaying this important action should be severely condemned and discontinued.

CLAMORING FOR WAR.

The People of Ecuador Want to Take Revenge on Peru.

NEW YORK, Aug. 18.—A World special says: There is a popular clamor in Ecuador for a declaration of war against Peru to take revenge for atrocities said to have been committed by Peruvians during the dispute over the boundary and in violation of the status quo.

The Peruvian consul here officially denies the rumor that Peru would be unable to respond to a challenge to fight on account of troubles at home. The Liberal leaders who were imprisoned on charges of being concerned in the recent alleged revolutionary movement, termed the dynamite conspiracy, have been liberated.

THE VIRGINIA DEMOCRATS.

Efforts to Secure a Free Coinage Plank Failed.

RICHMOND, Va., Aug. 18.—At 2:30 this morning the Democratic state convention renominated R. Taylor Scott for attorney general amid a scene of great confusion. The platform which endorsed the money and tariff planks of the national platform was adopted. All efforts to secure the introduction of a free coinage plank failed.

Congressman C. T. O'Ferrall, of Rockingham, for governor on the first ballot. Other candidates were J. Hoge Tyler and A. S. Bufford. R. C. Keut was nominated for lieutenant governor by acclamation.

SIXTEEN DWELLINGS BURNED.

BROOKLYN, Aug. 18.—Fire at Williamsburg early this morning destroyed sixteen small frame dwellings. The loss will reach fully \$30,000 with only small insurance. All the tenants escaped with their lives, although several were injured by jumping from the windows.

NOTED PAINTER DEAD.

NEW YORK, Aug. 18.—One of the best known and oldest of American landscape painters, John W. Casilear, N. A., died suddenly last night of apoplexy at Saratoga Springs, aged 82 years.

A Perilous Trip.

RAHWAY, N. J., Aug. 18.—Capt. Chris Paulsen, who intends to cross the Atlantic in a sixteen-foot Norwegian skiff, started on his perilous trip yesterday. Provisions for only two weeks can be stowed away, owing to the smallness of the craft. He will depend on meeting the trans-Atlantic steamers to replenish his store of provisions and water.

MURDERERS RESPITED.

TAHLEQUAH, I. T., Aug. 18.—The execution of the full-blooded Indian Baldwin Christie and the white man James Williams, which was to take place here today has been postponed. Chief Harris has respited the two men for thirty days.

HAD A NARROW ESCAPE

The Lakeside High School Came Very Near Going up in Smoke Yesterday Evening.

The Fire Fortunately Was Discovered and Extinguished—Careless Painters to Blame for It.

Contrary to General Belief the Amount of Taxes Paid This Year is Larger Than Last.

The High school building at Lakeside had a narrow escape last evening from destruction by fire and but for the timely discovery would be in ashes today. About 9 o'clock Frank Thompson, who lives opposite the building, noticed a fire in one of the school rooms from his room. He immediately secured the assistance of Robert Cox, a near neighbor, and they managed to get into the building through a window and quickly extinguished the flames.

The damage is scarcely anything, except that a portion of the floor about five feet square is burned. Some painters have been working in the building and the fire caught near where they left their outfit when they left at night. The fire is unquestionably due to their carelessness in the manner of leaving their things. Had it been discovered a few moments later the whole building would have been lost. There is no water within a distance of two blocks.

SIXTY PER CENT PAID.
The Tax Collections This Year Not So Small As Stated.

It has been stated that less than 40 per cent of the taxes has been paid. This morning several gentlemen got into a discussion about the matter and to settle it J. W. Marvin went to the county treasurer's office and looked over the figures. The total tax is \$1,428,000. On the May 31 settlement \$900,500 had been paid, or considerably more than 60 per cent. Besides quick a sum has been paid since May 31 but the amount is not yet available. Up to May 31 the payments for this year exceed those for 1892 by \$31,000.

DO NOT APPROVE OF IT.
Objections Raised to Some of the Coal Weighing Plans.

Said a gentleman this morning to a Herald reporter, while discussing the coal weighing question: "I have no use for this plan for the city to appoint weighmasters who shall be paid by the coal companies the salaries now paid to employees of their own selection. I don't want to say that all the dealers are dishonest, for I don't believe such to be the case. But that plan has great big holes in it all the same. Why would it not be a good plan to give the mayor power to appoint a man or men, whenever he thought best, such appointee to go out, pick up a wagon of coal on the street wherever he thought most advisable, weigh it, make his report and let that end his connection with the business. The next time another man could be appointed which would be an advantage for then the inspector would be wholly unknown to the coal companies until he made his business known. Get the idea?"

Another gentleman says that he don't see how the city can establish the office of weighmaster, as the charter makes no provision for such an office. A seller of weights and measures, however, is provided for in the charter. It is possible that such an officer might be given power to weigh loads as well as to sell weights.

PURCHASED CERTIFICATES.
Part of the Firemen's Relief Fund Invested in Them.

The Firemen's Relief association evidently has faith in the solidity of Duluth and the value of its securities as a source for investment. At a meeting held at engine house No. 1 last evening, the association voted to invest \$10,000 of its relief fund in local improvement certificates. These certificates are issued in accordance with the "Ontario Plan." When an assessment is made for a public improvement and a property holder does not wish to stand his pro rata of the expense all at once, the assessment is divided into five parts, one payable each year and all bearing 6 per cent interest, payable semi-annually.

This investment of the relief association shows confidence in the city, draws a better rate of interest than the banks pay and helps out the city treasury at a time when ready cash is hard to get. City Treasurer Voss has about \$1,500 of these securities and new issues are being made from time to time. They always have sold at a premium and been much in demand in the East until the present money stringency.

It has been necessary to postpone the excursion on the Ossifrage to be given by the Young People's society of the First Presbyterian church, advertised for Tuesday evening until Wednesday evening, Aug. 23, at 7:30. Tickets, 35 cents.

TOMORROW'S RACES.

A Great Day's Sport Promised For Tomorrow Afternoon.

Tomorrow will be a great day for sport at the Woodland Driving park. As the day approaches the interest in the races grows stronger and the local owners are getting warmed and will push their "hags" for all they are worth. The trotting race between W. T. Bailey's Ottawa Chief, W. P. Heinbach's Sweetie and T. J. Walsh's Zaywood will be especially exciting.

Another race has been added. A. Bailey's pacer Alec will have a brush with Dr. Davis' flyer. He will also pace an exhibition mile and will be called off. Tickets will be sold on him at the grounds.

The bicycle race will be for blood, in fact there has been no race yet over which so much spirit has been aroused.

The Owls Party.

The dancing party given at the Owls Roost last evening was the merriest of all the Oat-ka bench entertainments of the summer, and the Owls fairly outdid themselves. The grounds surrounding the "roost" were brilliantly lighted with torches. The second floor was used for dancing and on the first floor a delicious supper was served. Of course it was well on with the morning when the last waltz was danced.

A FIRST STREET COMPETITOR
shied his castor into the ring coupled with the remark that he wasn't small enough to sell melons at two for 5c.

Why?

If he would only come into our store we would show him hundreds of articles that we sell for less money than that. We are not afraid of low prices if he is. We haven't found it necessary to give away our goods yet, but should we decide on making a present to our customers, its market value will be more than 2 1/2 c or we won't advertise it, see. We wish to inform our customers that we have added another delivery wagon to our force, in order to meet the demands of a rapidly growing business.

We Will Quote Only a Few Articles for Tomorrow, as Our Prices Are Well Known:

He Cleared Himself.
A jury in municipal court this forenoon acquitted Luke Maloney of the charge of petit larceny. Gustav Lindberg accused the defendant of taking a valise, two pairs of pants and a shirt. He conducted his own case and was cleared.

Is About Over.
The street car strike in Superior is about over. Twenty-five of the old men went back to work this morning and all but three or four cars are running today. There was a little trouble this morning, but it did not amount to much.

Has Not Shut Down.
A rumor was around the streets a few days ago that the Mountain Iron mine had shut down. This is not so. The mine is running, but with only a small crew, just sufficient to get out one cargo a week, about 2500 tons.

The Greatest Advertiser.

Ex-Postmaster General John Wamaker, of Philadelphia, one of the richest and most successful merchants in America, in a Baltimore treatise said:

"I do my heaviest advertising in dull times. Then is when people look most keenly for bargains, are anxious to know just how much a thing costs, where they can save money."

"I advertise particular things, give prices and qualities and take as much pains with my announcements as I do with my stock."

"I always use the most space in the paper the people read the most carefully—choose the popular publication, in other words."

"Advertising is like hotel keeping. One big dinner will not make nor keep up the reputation of the house; steady, good cooking does it. In advertising it is the same. I never permit interest in my announcements to lag, and I never miss an issue of my chosen publications. Advertising has made my score the largest in the country. Anybody else can do the same."
